# **2014 Annual Action Plan**

## ***Summary***

**For the State's Housing, Community  
and Economic Development Needs**

January 2014

---

**State of Wisconsin ■ Scott Walker, Governor**  
**Department of Administration ■ Mike Huebsch, Secretary**

**Page left blank intentionally**

## INTRODUCTION

This *2014 Annual Action Plan*, referred to as the *Plan*, covers the fifth year of the 5-Year Consolidated Plan. It represents the planning and application efforts by the State of Wisconsin to secure federal funds earmarked to meet the critical housing and community needs of the State's citizens. The funds, which are estimated at \$34,201,000, are available through four formula grant programs of the U.S. Department of Housing and Urban Development (HUD). These resources play a key role in making Wisconsin's non-entitlement communities a better place to live.

The *2014 Annual Action Plan*, effective from April 1, 2014, through March 31, 2015, serves many objectives. It is the State of Wisconsin's application to HUD for the Small Cities Community Development Block Grants (CDBG), HOME Investment Partnerships (HOME), Emergency Solutions Grants (ESG), and Housing Opportunities for Persons with AIDS (HOPWA).

The Plan promotes program coordination, sets forth priorities, and serves as a guide in coordinating the delivery of limited housing, community and economic development resources to meet the needs of various program clientele.

The Department of Administration contact for the Plan, or specific components of the Plan is:

**Lisa Marks, Administrator**  
Division of Housing  
101 East Wilson Street, 5<sup>th</sup> Floor  
P.O. Box 7970  
Madison, WI 53707-7970  
Telephone: (608) 267-0770  
FAX: (608) 266-5381  
Email: [Lisa.Marks@Wisconsin.gov](mailto:Lisa.Marks@Wisconsin.gov)

This Summary highlights key points and overall themes, and the six main parts of the Consolidated Plan. The six parts are:

- *Part I: Coordinating and Managing the Process*
- *Part II: Citizen Participation*
- *Part III: Housing and Community Development Needs*
- *Part IV: Housing and Community Development Priorities*
- *Part V: Action Plan -- One-Year Use of Funds*
- *Part VI: Outcomes*

## **Part I: Coordinating and Managing the Process**

The Wisconsin Department of Commerce (responsibilities transferred to the Department of Administration in the 2011-2013 Biennial Budget) was the agency responsible for developing the Consolidated Plan and its related documents since it administered all four U.S. Department of Housing and Urban Development (HUD) formula programs covered by the Plan.

**In Program Year 5 (2014), the Department of Administration will directly manage and administer all CDBG programs.**

The Plan is submitted to HUD using the CPMP tool (an electronic template developed and supported by HUD Field Office staff). The Plan incorporates a HUD mandated outcome measurement system, consisting of overarching objectives, outcome categories and output indicators that significantly improve reporting program benefits to Congress and OMB.

Input into the development of the Consolidated Plan involved State agencies, including the Department of Administration (DOA); Department of Children and Families (DCF); Department of Corrections (DOC), Department of Health Services (DHS); Department of Public Instructions (DPI), Department of Workforce Development (DWD); Department of Veterans Affairs (DVA); and the Wisconsin Housing and Economic Development Authority (WHEDA); as well as non-profit housing providers, local governments and other private organizations and citizens.

## **Part II: Citizen Participation**

The State consulted with a wide range of public, private and non-profit agencies in preparation of the Consolidated Plan. The State provided an extensive participatory process, which included a well publicized comprehensive online survey with 157 individuals and organization/agency responses, numerous individual and group meetings, and the receipt of several written comments from state agencies and state-wide/regional organizations for the 2010-2014 Plan

In compliance with its Citizen Participation Plan, the Department of Administration made the Program Year 5 Action Plan available for public review and comment for 30 days prior to its submission to HUD. The Department advertised its availability by legal notice in the State's newspaper of record, the Wisconsin State Journal, on December 23<sup>rd</sup> and 30<sup>th</sup>, 2013. E-mail notifications were also sent to units of general local government announcing the availability of the draft Plan and requesting comments on the Plan. The draft Plan was available on the DOA website during the public comment period (December 23, 2013 – January 22, 2014).

In addition, DOA published notices in the Wisconsin State Journal on December 6<sup>th</sup> and 11<sup>th</sup>, 2013, regarding the public hearing being held on December 20<sup>th</sup>, 2013, for the Year 5 Action Plan.

DOA received \_\_\_\_ public comments. Details of the comments and the agency responses are attached to the CPMP Narrative of the 2014 Annual Action Plan.

### **Part III: Housing and Community Development Needs**

To evaluate Wisconsin's housing and community development needs, it is important to observe the historical, social, and economic factors impacting Wisconsin's residents, families, and households. Analyzing changes in population size, geographic distribution and composition along with household and family characteristics, labor force participation, income and poverty levels, racial and ethnic diversity, and the market and inventory conditions of Wisconsin housing reinforces where priorities for resource allocations continue to be most critical. In addition to the 2000 Census, estimates generated by the American Community Survey (ACS) in 2007, or the 2005-2007 ACS 3-year estimates were used where available.

The State of Wisconsin experienced a 5.8% increase in its population from 2000 to 2008, having gained 311,441 new residents (based on DOA estimates). Population growth varied geographically. Counties in the "Milwaukee Metro" (Milwaukee, Ozaukee, Washington, and Waukesha) grew by only 2.53% while the 15 counties in the "Other Metro," category had the fastest population growth, increasing by 8.03%. The remaining 53 counties making up the "Balance of State" grew at 5.94%. Limiting analysis to regions that do not receive CDBG entitlements directly from HUD (often referred to as the "Wisconsin Program"), population grew at 8.3%. The fastest growing region is still the Other Metro (excluding Dane County and the Cities of Appleton, Beloit, Eau Claire, Green Bay, Janesville, Kenosha, La Crosse, Neenah, Oshkosh, Racine, Sheboygan, Superior, and Wausau) at 11.08%. Milwaukee Metro (excluding Milwaukee and Waukesha counties) follows at 8.85%. The Balance of State (excluding the City of Fond Du Lac) grew at 6.81%. The population growth rate has slowed compared to that of the 1990s, when the State expanded at a 9.42% rate for the period. The DOA projects that by 2010 the State's population will exceed 5.7 million.

The age composition of the State's population has change significantly between 2000 and 2008. Changes include (data from 2000 Census and 2007 ACS 1-year estimates):

- An increase of 356,044 (4.00%) of residents from 0 to 4 years of age;
- A decrease of 63,749 (5.36%) of residents who are 5 to 19 years old;
- A relatively small increase of 31,863 (3.00%) young adults;
- A fairly large increase of 155,328 (8.35%) of adults between the ages of 35 and 59; and
- A significant increase of 100,819 (11.11%) of adults 60 and older.

From 2000 to 2008, Wisconsin experienced fairly small changes in the composition of the state's racial and ethnic groups. Although the number of white residents of the state increased, they decreased 1.41% as a percentage of the State's total population. American Indians also experienced a decline both as a percentage of the total population and in absolute number. When entitlement cities and counties are removed from the total, 95.50% of the population is White, 0.79% is Black or African American, 1.03% is American Indian or Alaska Native, 0.91% is Asian, 0.02% is Native Hawaiian or other Pacific Islander, 0.82% identifies as some other race, 0.92% are of two or more races, and 2.06% are Hispanic or Latino of any race. The distribution of racial and ethnic groups varies significantly by geography.

The DHS has estimated that number of people with physical disabilities will grow to 373,654 and the number of persons with a sensory disability will grow to 163,210 in 2010. Financing for housing rehabilitation and modification to allow persons with disabilities to function independently or make homes accessible will continue to be a critical need.

According to 2007 ACS 1-year Estimates, 10.8% of Wisconsin residents fell below the poverty threshold in 2007. This is a significant increase from 1999, when it was 8.7%. Poverty among children has followed the same pattern, as it increased from 11.2% in 2000 to 14.4% in 2007.

According to the National Low Income Housing Coalition study Out of Reach, 2009, Publication the estimated mean (average) wage for a renter is \$12.11 per hour. In order to afford the HUD fair market rent for a two bedroom unit at this wage, a renter must work 47 hours per week, 52 weeks per year. Or working 40 hours per week year-round, a household must include 1.2 workers earning the mean renter wage in order to make the two-bedroom FMR affordable. Households in the very low- and low-income ranges have great difficulty finding adequate housing within their means that accommodates their needs.

The 2000 Census reported that 211,912 households had an income at or below 30% of MFI and that these households were the group primarily affected by housing problems where 72.9% of the renters and 75.9% of the owners had housing problems. Overall minority rental and owner households tended to have higher incidences of housing problems than White non-Hispanic households and housing problems were more prevalent in metropolitan areas.

The national housing crisis has upturned markets across the country, and Wisconsin is no exception. The number of homes sold in Wisconsin decreased 20% from 2007 to 2008 (according to the Wisconsin Realtors Association (WRA)) and building permits for new houses have been steadily decreasing since 2003 (according to data from the State of the Cities Data Systems). Foreclosure rates are very high in the Midwest and Wisconsin had the twentieth highest foreclosure rate in June of 2009. While home prices have fallen since their peak in the first quarter of 2007, the WRA reports that they are still 25.3% above price levels in the first quarter of 2001, which is more than the rate of inflation.

The large changes in both the housing market and the general economy make changes in affordability of homes in Wisconsin difficult to determine. Nationwide, there is a growing disparity between incomes and home prices. The current crisis is bringing down home prices, but as the economy suffers, more people are experiencing wage decreases or job loss. It is unclear how these two factors balance out. Further, many former homeowners or people who had planned to buy homes in the near future are returning to the rental market. This is particularly applying pressure to the low number of affordable rental units. According to the Joint Center for Housing Studies at Harvard University, nationwide, the number of rental units that are affordable to households earning \$16,000 decreased 17% between 1995 and 2005. Fair Market Rents increased in all but two counties in Wisconsin between 2005 and 2009. Meanwhile, though home prices are down, they still remain well above pre-housing boom levels. In all, the current economic crisis may have made affordability a bigger problem in Wisconsin.

With the advent of predatory lending, subprime mortgages, and high unemployment rates, foreclosures have become much more common in today's housing market. According to data from the UW-Extension, the number of foreclosures from 2007-2008 in Wisconsin increased in all counties except Langlade and Manitowoc. When looking at foreclosure cases from 2006, when housing prices began to decline, to 2008, the increase is even more drastic. Foreclosure cases increased 52% statewide, but varied from 5 counties in which cases decreased (Portage, Menominee, Price, Ashland, and Manitowoc) to increases of more than 100% in Adams and Marquette counties. The majority of counties experienced increases between 30 and 70 percent. Comparing the first two quarters of 2009 to 2008 shows that foreclosure cases keep increasing, with a 20.5% increase statewide.

Many studies predict that the number of foreclosures will continue to increase in the upcoming years both in Wisconsin and across the United States due to the amount of adjustable rate mortgages with balloon payments coming due and the increasing unemployment rates limiting one's ability to pay any bill. A study conducted by the Center for Responsible Lending estimates that 83,400 homes will be lost through foreclosure over the next four years in Wisconsin alone.

Rent contracts between tenants and landlords are severed when the owner of a rental unit files for foreclosure. Foreclosures automatically terminate most tenancies in Wisconsin. Given the financial straits of the defaulting landlord, tenants generally lose their security deposits and any prepaid rent.

## **Part IV: Housing and Community Development Priorities**

The Consolidated Plan addresses the overall strategy for addressing a variety of housing, community, and economic development needs. The focus of the activities and strategies described in this Plan is on the evolving needs of low and moderate-income persons, including persons with special needs. A central theme throughout this Plan is the development of strategies offering flexibility and responsiveness with accountability.

This Plan clearly recognizes the efforts of the State, in partnership with other local, state and federal entities sharing common goals and interests. These other entities also include tribes, local and regional organizations or commissions and non-profit and for-profit corporations.

The Department's response to the identified housing and community development priority needs must be broad-based and sensitive to local markets that are both economically and geographically diverse, including support of shared-appreciation housing models such as land trusts.

### **Housing**

Areas of special focus will include promotion of residential rehabilitation; rental assistance; and assistance for the homeless and special needs populations, with the highest priority of investment for households at the very low-income level. To address the wide variety of critical needs to expand affordable housing opportunities, resources will be directed to projects that:

- Improve affordable rental housing opportunities for extremely low-, very low-, low- and moderate-income households by providing rental assistance, supporting production of affordable rental units, including those for large families and persons with disabilities, and supporting efforts to preserve affordable rental units with expiring contracts that are at greatest risk of being converted to market rate units
- Improve homebuyer opportunities for low- and moderate-income households
- Preserve and increase the availability of safe, sanitary housing for low- and moderate-income owners and renters including the reduction of lead-based paint hazards
- Assist special subpopulations and special needs groups with shelter, housing assistance, and other services including homeless prevention and rapid rehousing activities, expansion of permanent housing and rental assistance
- Support financial and other activities designed to prevent residential foreclosures and address the consequences of vacant, abandoned or foreclosed properties
- Promote visitability and universal design in affordable housing construction, conversion, and major rehabilitation
- Endorse green building practices and use of non-toxic materials, promote energy efficient, renewable energy technologies, and bike and pedestrian friendly design in affordable housing construction, conversion, and rehabilitation
- Advance fairness and accessibility for low-income housing consumers through supporting information dissemination, enforcement and compliance with fair housing laws
- Sustain efforts to provide housing disaster relief and mitigation

## **Public Facilities**

Non-housing community development activities include the replacement or reconstruction of deteriorating infrastructure, the construction or rehabilitation of essential community facilities such as community centers, senior centers, and facilities that provide needed public service such as clinics, libraries, and related activities. Resources are provided through grants to units of general local government (UGLGs) only and will be directed to projects that alleviate threats to public health, safety, or welfare, or reduce slum and blight, or respond to an urgent local need, and:

- Ensure the affordability of basic services that enhance community vitality
- Promote improved housing and economic opportunities for low- and moderate-income households
- Support revitalization of established neighborhoods, downtown business districts, blighted sites, and minimize sprawl by promoting reinvestment in existing community assets
- Assist capital improvement projects that support previous planning efforts and are part of a broader community development strategy that spurs new public and private investment
- Facilitate accessibility improvements in public facilities
- Encourage the use of energy efficient design, retrofitting, equipment, and bike and pedestrian oriented design
- Respond to natural and man-made disasters or catastrophic events

## **Economic Development**

Economic development program resources are grants to UGLGs for projects that must benefit low- to moderate-income persons. The funding will be directed to projects that meet the following goals and create and expand economic opportunity in our communities, focusing on both workers and businesses:

- Encourage business investment that supports job creation through expansion
- Foster new businesses that result in job creation
- Assist businesses that are considering closing or reducing employment levels to be able to retain those positions
- Support job training and skill development
- Promote entrepreneurial development and small business start-ups
- Support incubators and microenterprises
- Support regional economic development strategies
- Respond to urgent local needs such as man-made or natural disasters that have county-wide impact

## **General Program**

Efforts will be extended to insure maximum state coverage of program resources. Emphasis shall also be placed on enhancing local capacity building and on integrating program resources as opportunities and situations arise in disadvantaged and under-served areas.

**Part V: Annual Plan -- One-Year Use of Funds (2014-2015)**

**Annual Plan April 1, 2014 - March 31, 2015**

**NEW RESOURCES - ESTIMATED**

**\* HUD formula grant estimates are based on 95% of 2013 allocations.  
All proposed HUD-funded program budgets will be proportionally increased or decreased from the estimated funding levels to match actual allocation amounts.**

**HUD COMMUNITY PLANNING AND DEVELOPMENT  
FORMULA ALLOCATION PROGRAMS**

Program	HUD FY14 Authorization Estimate*	Local Assistance Funds	Pro Income- Recap Funds	Total Aid Funds
Community Development Block Grant (CDBG)	\$23,640,800	\$22,836,000	\$26,139,000	\$48,975,000
Community Development Aids		\$10,836,000	\$10,639,000	\$21,475,000
Economic Development Aids		\$5,000,000	\$0	\$5,000,000
Housing Aids		\$7,000,000	\$15,500,000	\$22,500,000
Housing Investment Partnership Program (HOME)	\$7,596,000	\$6,931,000	\$800,000	\$7,731,000
Emergency Solutions Grant (ESG)	\$2,544,000	\$2,468,000	\$0	\$2,468,000
Housing Opportunities for Persons With AIDS (HOPWA)	\$420,000	\$407,000		\$407,000
Subtotal HUD Formula Grants *	\$34,201,000	\$32,642,000	\$26,939,000	\$59,581,000

**CDBG Program:**

- An estimated \$25 million will be available in Federal FY' 14 formula allocations and program income. As a result of DOH's compliance review, closeout, and audit of hundreds of open grants during the 2013 program year and delays in Phase 2 of the CDBG-Housing 2012-13 contracts, DOH anticipates an additional \$24 million will be made available and awarded during the 2014 program year.
- Funds are available to "Small Cities" (local units of government that do not receive direct HUD CDBG entitlement allocations)
- In rare cases, funds may be used in entitlement areas if a project can document significant regional or statewide impact benefiting low- and moderate- income persons

**Community Development:**

- As grants to units of general local government (UGLGs), approximately \$21.5 million available for Community Development activities funded with a combination of FY14 grant authorization funds and up to \$2,000,000 (estimate) in State Revolving Loan fund program income, and recaptured funds
- Approximately \$2 million set aside for special projects and emergency assistance. Funds will be available on a continuous application basis for special project initiatives that address affordability of critical community services where the timing of the project does not coincide with the annual competitive grant cycle or for responding to emergency community development needs necessitated by a disaster that threatens the health and safety of area residents or economic viability of the community. Any available funds may be used for responding to a natural or man-made disaster.

- Up to \$75,000 set aside for mental health services to provide gap funding, when critically needed, for the SSI/SSDI Outreach, Access and Recovery (SOAR) program. SOAR grants (including CDBG funding) are awarded through an annual competitive application process. CDBG funds (C-SOAR) will be awarded to 2-4 communities. C-SOAR grants will assist an estimated 54 persons who are homeless and living with mental illness better coordinate supportive services.
- Approximately \$2 million of program income (State Revolving Loan Fund) for the Public Facilities for Economic Development (PFED) grant program to assist local governments in financing infrastructure (water and sewer transmission and treatment, streets, curbs and sidewalks) that directly supports business expansion, increased employment opportunities for low- and moderate-income persons, and adding to municipality's tax base. PFED grants will assist 4-6 communities and create or retain approximately 200 jobs, 125 of which will be for low- and moderate-income workers. Projected activity for the PFED program will continue to be impacted by the overall economy.
- Estimated \$16 million will be made available through an annual competitive application process to an estimated 30-35 local governments. Funded projects will:
  - Assist local communities in financing of public infrastructure and buildings (water and sewer transmission and treatment, streets, parks, curbs and sidewalks; handicapped access projects for municipal facilities, and municipally owned and operated public facilities) that serve primarily low- and moderate-income persons, including municipalities on the Final Funding List for the WI DNR Safe Drinking Water Program.
  - Support downtown development efforts committed to revitalizing and eliminating blight in its downtown. Funding includes slum and blight removal and infrastructure projects, as well as other Main Street type projects that are CDBG eligible activities.
  - Grants will benefit an estimated 12,800 households, of whom approximately 7,000 will be of low- or moderate-income.
- Up to \$400,000 will be made available through an annual competitive application process to an estimated 12 to 15 communities for plans that address major local economic or community development proposals or unexpected economic activities that adversely impact the community. Grants are limited to projects that, if implemented, are CDBG eligible activities.

**Economic Development:**

- Estimated \$5 million set-aside for grants to UGLGs for Economic Development special projects to fund activities allowed under federal guidelines. Every economic development project must benefit low- to moderate-income persons. Funds will be made available to units of general local government through an on-going application process for:
  - ✓ local governments for loans to businesses in order to create or retain jobs;
  - ✓ local governments for awards to businesses for training needs
  - ✓ local governments for awards to businesses for capital investment or new technologies
- Five grants will assist in creating or retaining approximately 500 new jobs, 300 of which shall be for low- and moderate-income workers
- DOA will make grants to units of general local government for business loans that will be repaid to local revolving loan funds or, in some cases, non-profit economic development entities

**Housing:**

- Approximately \$22.5 million available for Housing activities including FY14 HUD authorization funds and recaptured funds, and program income
- Approximately \$10.8 million available through a regional approach with grants to a lead county agency, and to individual units of general local government that choose not to belong to a regional organization.

- Up to \$10.7 million will be awarded for implementation of Phase 2 of the 2012-13 contracts. Longer than anticipated roll-out and start-up of the 2012-13 contracts delayed these awards that were initially designated for the 2013 program year.
- Eligible activities: owner-occupied and renter-occupied rehabilitation, accessibility modifications, homestead (down-payment and closing cost assistance, combined in some situations with rehabilitation), new housing site development and certain acquisition costs, small-scale public facilities improvements
- Up to \$1 million set aside for special project initiatives (available on a continuous basis) for making affordable housing units newly available to low- and moderate-income households or for responding to emergency housing needs necessitated by a disaster.
- Any available funds may be made available for responding to emergency housing needs necessitated by a disaster.
- CDBG Housing will assist approximately 440 households in 2014-2015

### **HOME Program:**

- Estimated \$7.7 million available in Federal FY14 formula allocation including program income and recaptured funds
- At least 15% HOME aid funds available to Community Based Housing Development Organizations (CHDOs) for providing affordable housing units
- Up to \$3.5 million available for housing rehabilitation and homebuyer assistance
- Up to \$3.4 million available for rental housing development
- Up to \$780,000 available for tenant based rental assistance
- Funds disbursed by formula and through competitive processes
- Funds available statewide (except in HOME participating jurisdictions)
- Eligible activities: homeowner rehabilitation, homeowner accessibility rehabilitation, renter rehabilitation, rental housing development, home buyer assistance, home buyer lease-purchase assistance, tenant-based rental assistance, and special projects
- HOME funding will leverage an estimated \$20,000,000 in other private and public funding
- HOME funding will assist approximately 784 households in 2014-2015

### **Emergency Solutions Grant (ESG) Program:**

- Estimated \$2.5 million available as pass through funds to non-profit agencies and local units of government
- DOA does not directly implement program funds except for HMIS implementation
- Funds available through competitive, formula and performance based processes that emphasize local priorities (in combination with State Transitional Housing Grants and Homeless Prevention Program Grants) to local governments and nonprofit agencies including Continuum of Care lead agencies ; overall funds are allocated on percentage basis to regions of state
- State funded Interest Bearing Real Estate Trust Accounts (IBRETA) revenues supplement homeless program funds
- Eligible activities include light support for the provision of essential services; payment of maintenance and operations for shelters; and support for homelessness prevention and rapid re-housing program
- ESG funding will provide shelter, prevention and re-housing services to approximately 9,000 households in 2014-2015

**Housing Opportunities for Persons With AIDS (HOPWA) Program:**

- Estimated \$407,000 in federal FY14 funding available (separate allocation for Milwaukee metropolitan area)
- Funds available through competitive process
- Eligible activities: housing assistance—such as support services, rent and utility assistance, security deposits and housing counseling—aimed at preventing homelessness
- HOPWA funding will provide assistance to approximately 135 households in 2014-2015

**State Housing Funds - Housing Cost Reduction Initiative (HCRI):**

- Up to \$1,300,000 available annually to assist homeowners with foreclosure prevention, homebuyers with closing costs and other financial assistance
- Funds available through competitive grant process to housing authorities, Native American Indian Tribes, and for-profit and non-profit corporations throughout the state
- For 2014-2015, an estimated 380 homebuyer households will be assisted

**State Homeless Assistance and Homeless Prevention Funds:****State Shelter Subsidy Grants (SSSG):**

- Up to \$1,113,600 State funds available to support homeless and emergency shelter program's operations
- Eligible applicants are a county or municipal governing body or agency, for-profit entities, an Indian tribal government, a community action agency, or other private non-profit organization. Only generic emergency facilities and voucher programs are eligible.
- SSSG funds cannot exceed 50% of an agency's annual operating budget.
- Funds distributes throughout the State by formula, based on past shelter use and anticipated need, to the three "regions" of the State defined by statute (Milwaukee County, Dane County and the remainder of the State).
- For 2014-2015, an estimated 469,600 nights of shelter will be provided to 5,900 homeless and at risk of homelessness households

**Transitional Housing (TH) Grants:**

- Up to \$300,000 State funds available to promote the development and/or expansion of supportive housing and supportive services to assist homeless individuals and families in their transition from homelessness and to enable them to live as independently as possible.
- Funds made available in a combined application with ESG and HPP programs
- Eligible applicants are a county or municipal governing body or agency, for-profit entities, a community action agency, or other private non-profit organization.
- Eligible activities: leasing costs for facility based and non-facility based programs, operating costs of housing, supportive service costs
- In 2014-2015, an estimated 300 homeless households will be assisted

**Homeless Prevention Program (HPP) and Critical Assistance (CA) Grants:**

- Up to \$1,515,000 HPP funds available in an annual ESG-TH-HPP combined application
- \$ 282,800 CA funds available for homeless prevention activities in those areas of the State not covered by ESG-TH-HPP
- Eligible homeless prevention include: rent (including security deposit, first and last month's rent, and rent subsidy for up to 12 months); mortgage foreclosure prevention; and, utility costs (related to heat, gas, light, water, and public or private sewerage, including deposit or hook-up charges)
- In 2014-2015, HPP and CA will assist over 2,000 homeless households

**Interest Bearing Real Estate Trust Accounts (IBRETA)**

- Estimated \$30,000 in funds will supplement homeless program funds
- Funds generated by state law requiring banks to remit interest on real estate brokers trust accounts to the State for homeless programs

**Part VI: Outcome Measurement System**

HUD’s Consolidated Plan regulations include the requirement that “Each State provide outcome measures for activities included in its action plan in accordance with guidance to be issued by HUD.” The HUD Performance Measurement System for all four HUD formula grant programs contains:

Three Overarching Objectives:

- **Providing Decent Housing** – primarily focusing on housing activities whose purpose is to meet individual family or community affordable housing needs;
- **Creating Suitable Living Environments** – focusing on activities designed to benefit communities, families, or individuals (primarily LMI persons) faced by addressing issues in their living environment; and
- **Creating Economic Opportunities** – primarily relating to job creation/retention, economic development, and commercial revitalization.

With

Three Outcome Categories:

- **Availability/Accessibility** – typically activities that make public facilities, infrastructure, services, housing, or shelter available or accessible to low- and moderate-income people;
- **Affordability** – typically activities that provide affordability in a variety of ways to low- and moderate income people;
- **Sustainability** – typically activities that are aimed at improving communities or neighborhoods, helping to make them livable or viable by providing benefit to persons of low- and moderate-income or addressing slum and blight.

The tables below summarize the results the State expects for 2014-2015. Actual outcome measurements will be captured in the HUD Consolidated Annual Performance and Evaluation Reporting.

**Providing Decent Housing Objective**

Outcome	Activity	Indicator	Estimated 2014 Total
Availability / Accessibility	<b>New Housing Units</b> <ul style="list-style-type: none"> <li>• Rental Housing Development</li> <li>• Owner Housing Development</li> </ul>	Housing Units Assisted	135 Rental 15 Owner
	<b>Public Infrastructure</b> <ul style="list-style-type: none"> <li>• Water &amp; sewer, street extensions, etc., for housing development</li> </ul>	Persons Assisted	33
Affordability	<b>Housing Rehabilitation</b> <ul style="list-style-type: none"> <li>• Rental Rehab</li> <li>• Owner Rehab</li> </ul>	Housing Units Assisted	62 Rental 525 Owner
	<b>Homebuyer Assistance</b> <ul style="list-style-type: none"> <li>• First-time Homebuyers</li> <li>• Downpayment, closing costs</li> <li>• New Construction Financing</li> <li>• Rehabilitation</li> </ul>	Households Assisted	212
Sustainability	<b>Public Site Improvements for Affordable Housing</b> <ul style="list-style-type: none"> <li>• Neighborhood Improvements (Drainage, etc.)</li> </ul>	Persons Assisted	30

### Creating Suitable Living Environment Objective

Outcome	Activity	Indicator	Estimated 2014 Total
Availability / Accessibility	<b>Public Facilities</b> <ul style="list-style-type: none"> <li>• Senior Centers</li> <li>• New treatment plants</li> <li>• Fire trucks</li> </ul>	Persons Assisted	2,000
	<b>Housing Assistance to Homeless Persons</b> <ul style="list-style-type: none"> <li>• Shelters</li> <li>• Rent &amp; Security Deposits</li> <li>• Supportive Services</li> </ul>	Households Assisted	20,092
	<b>Accessibility Improvements to Housing Units</b> <ul style="list-style-type: none"> <li>• Handicapped access improvements</li> </ul>	Housing Units Assisted	180
Sustainability	<b>Slum &amp; Blight Remediation</b> <ul style="list-style-type: none"> <li>• Site clearance</li> <li>• Site clean up</li> </ul>	Communities Assisted	1
	<b>Public Infrastructure</b> <ul style="list-style-type: none"> <li>• Water &amp; Sewer</li> <li>• Curb &amp; gutter, sidewalks, streets</li> <li>• Electrical</li> </ul>	Persons Assisted	40,000
	<b>Public Facilities</b> <ul style="list-style-type: none"> <li>• Libraries</li> <li>• Fire stations</li> <li>• Treatment plant upgrades</li> </ul>	Persons Assisted	10,000
	<b>Special Needs Housing Assistance</b> <ul style="list-style-type: none"> <li>• Rent</li> <li>• Utilities</li> <li>• Mortgage Payments</li> </ul>	Persons Assisted	330
	<b>Local/Regional Planning Efforts</b> <ul style="list-style-type: none"> <li>• Plans</li> </ul>	Communities Assisted	12

### Creating Economic Opportunity Objective

Outcome	Activity	Indicator	Estimated 2014 Total
Availability / Accessibility	<b>Public Facilities or Infrastructure for Businesses</b> <ul style="list-style-type: none"> <li>• Water &amp; sewer, streets, etc.</li> <li>• Treatment plants</li> <li>• Industrial Parks</li> </ul>	Jobs Created	180
Affordability	<b>Quality Job Creation or Retention</b> <ul style="list-style-type: none"> <li>• Business Loans &amp; Grants</li> </ul>	Jobs Created/Retained	500
	<b>Dairy Farm Job Creation</b> <ul style="list-style-type: none"> <li>• Business Loans</li> </ul>	Jobs Created/Retained	0
Sustainability	<b>Slum &amp; Blight Remediation for Business Creation or Expansion</b> <ul style="list-style-type: none"> <li>• Site clearance</li> <li>• Site clean up</li> </ul>	Jobs Created	0
