Mr. Garry Werra, CPD Director
U.S. Department of Housing and Urban Development
Henry Reuss Federal Plaza
310 West Wisconsin Avenue, Suite W950
Milwaukee, WI 53202-2289

Subject: 2022 State of WI Consolidated Annual Performance Evaluation Report (CAPER) Submission
(Program Year 3: April 1, 2022 - March 31, 2023)

Dear Mr. Werra:

Enclosed are copies of the 2022 State of WI CAPER, public comments and 2011-2022 Performance Evaluation Report (PER), Financial Summary Reports. These documents were also sent to you electronically. The 2022 CAPER was prepared and submitted through IDIS in accordance with our Citizen Participation Plan and the requirements of 24 CFR 91.15.

We appreciate your timely review of these documents. Please contact me if you have any questions regarding this submission.

Sincerely,

DocuSigned by:
Susan Brown

CR-05 GOALS AND OUTCOMES

Progress the jurisdiction has made in carrying out its Strategic Plan and its Action Plan

CDBG

The number of businesses assisted with CDBG economic development program (CDBG-ED) funds was lower than anticipated. Under the current lending environment, businesses are finding conventional loans more advantageous than the underwriting, compliance, and long-term reporting commitments required for CDBG-ED funding. DEHCR is currently working with stakeholders to make CDBG-ED funds less burdensome with the hopes of stimulating interest in the program.

DEHCR provided training through the annual application and implementation trainings. During PY 2022, DEHCR finalized the CDBG-CLOSE program. DEHCR will continue to monitor the use of CDBG-CLOSE funds to ensure conformance with all applicable regulations. With the transition to all grants made from CDBG-ED funds, DEHCR has resolved the issues surrounding CDBG-ED awards.

The number of communities assisted with CDBG Planning (CDBG-PLNG) remains low. DEHCR received three applications during the program year and funded three. DEHCR staff promotes the planning program through contact with consultants, funding agency staff, and presentations at professional organization events. Planning utilization has historically been a challenge due to projects needing to meet a national objective and result in an eligible activity outcome. DEHCR accepts PLNG applications on an on-going basis to stimulate interest for the program.

The number of persons assisted with CDBG funds for public facilities projects (CDBG-PF) exceeded expectations. DEHCR received 34 accepted applications in the 2022 program year and funded 18. The CDBG-PF program continues to be in high demand with many non-entitlement communities facing challenges with aging public infrastructure. DEHCR anticipates the high demand for CDBG-PF dollars to continue in the coming years.

Through the seventh full year of operation under the CDBG Housing Regions program (CDBG-H), program funds and services were made available to all eligible Wisconsin communities. This effort assisted in meeting geographic needs of the program. Contracted grantees were required to meet minimum low-income (30 percent of funds expended) thresholds to target and provide services to that population.

HOME

The average amount of HOME-HHR assistance provided to homebuyers in Program Year 2022 was higher than planned by approximately 60 percent (\$19,803 planned versus \$33,159 actual) which is outside the variance rate for the program. This increase in cost corresponded with a lower number of homebuyers receiving assistance; as fewer units were available during the 2022 program year. Higher assistance amounts were needed to meet affordability goals. To make more homes affordable to Low-Moderate Income (LMI) families, a greater supply of available housing was required.

The average amount of assistance provided to homeowners for rehabilitation in Program Year 2022 was more than 25% higher than planned (\$47,360 planned versus \$59,579 actual) which is outside the variance rate for the program. The higher cost can be attributed to increasing construction and labor

costs and scope of work that needs to be done. Again, a lack of available houses to rehabilitate was experienced in Wisconsin.

HOME-RHD accepted applications during two formal competitions held in June and October of 2022 with a total of 11 applications received. HOME-RHD also provides an opportunity for small developers to apply for funding through a rolling application process. HOME-RHD funding provided for construction, and/or rehabilitation of 74 affordable rental units.

HOME-TBRA provided rental assistance to 1,935 households which were homeless or at risk of homelessness. Households served greatly exceeded goals for the program year. All 15 grantees awarded TBRA funding in PY21 were awarded TBRA funding in PY22 through a competitive application process. No new grantees were awarded funding for this program year.

All HOME TBRA grantees are required to affirmatively market their programs to all qualifying members of their target populations, which include people who are homeless or at risk of homelessness. Through program efficiencies undertaken in Substantial Amendment #4, the State has considerably expanded its service area and numbers of households served through the HOME- TBRA program. The state also continued a service approach which required grantees to cover more than one county. Program year 2022 grantees' received contracts after a competitive application to provide additional coverage and opportunity for recipients to fully utilize funding. All PY21 HOME TBRA grantees were awarded funding in PY22.

ESG

The ESG program has made significant progress towards its goals. The ESG program overall served more than the total number of persons anticipated in the goals; however, the split between the different goals or ESG project types was different than the Action Plan goals. More persons were served in emergency shelters, homelessness prevention, and other services than anticipated; however, fewer were served in tenant-based rental assistance/rapid re-housing than anticipated. There are several explanations for this.

- The number of shelter nights has increased, likely due to the lessening of COVID restrictions, which allowed for higher shelter capacity, closer to pre-pandemic levels.
- There was a significant increase in persons served in homelessness prevention. This is likely due to the expiration of eviction moratoria as well as the importance of keeping persons in existing housing due to the limited rental market.
- Rapid re-housing providers across the state are having difficulties identifying housing for clients to move into. A lack of available rental housing across rural Wisconsin is preventing greater successes. This prolongs periods of homelessness and means that fewer households are served. Providers are engaging landlords, and work with households to address barriers to housing.
- Emergency shelters are focused on prioritization using coordinated entry and diversion. Some households who have low barriers to housing may not be enrolled in a rapid re-housing program because they are capable of obtaining housing quickly on their own. This causes the program to have a higher cost per person, but will result in more persons in the state exiting homelessness.
- The focus on rapid re-housing has meant that some grantees have shifted resources towards rapid re-housing programs. The state is supportive of this approach as it is an overall more efficient use of ESG funding.

HOPWA

Short-term rental, mortgage, utility and supportive services assistance was provided to 102 households with HOPWA funding.

HTF

The Wisconsin Housing and Economic Development Authority (WHEDA) submitted the 2022 allocation plan, with the goal of creating 75 units through the Housing Trust Fund program for the extremely low-income. WHEDA conducted one competitive round of applications for the allocation of HTF, in concurrence with the LIHTC application cycle, in December 2022.

In the December application period, 11 Housing Tax Credit recipients submitted applications for an allocation of HTF. Five applications were awarded. During PY 22, five projects supported with HTF funding completed construction and the units were placed into service. In addition, during the program year, there were 4 projects funded from previous allocations of Housing Trust Funds that closed on the funding, resulting in 181 units that are currently under construction. Lastly, there were 4 projects that received a preliminary commitment of Housing Trust Funds representing 181 units that started construction.

Table 2 – Accomplishments – Strategic Plan to Date

Assess how the state’s use of funds, particularly CDBG, addresses the priorities and specific objectives identified in the plan, giving special attention to the highest priority activities identified

CDBG

The annual application and implementation trainings provided by DEHCR have aligned with community needs for infrastructure upgrades. An opportunity exists to emphasize additional CDBG-PLNG and CDBG-ED funding availability with community stakeholders during the training programs. DEHCR also has identified the need for additional marketing throughout the state to utilize available funds and meet program goals.

The use of CDBG-H funds as no-interest loans assists low- and moderate-income households to address structural needs they might not otherwise be able to afford and meets state priorities of serving both rental units and owner-occupied units. The program requires a pre- and post-construction inspection to guarantee finished projects meet safe and sanitary guidelines, particularly in the area of lead-safe rehabilitations, which is identified as a program and statewide priority.

HOME

The state uses about 45 percent of HOME funding to provide affordable housing for single families throughout Wisconsin. Funding is distributed by regions; 58 percent is for homebuyer down payment assistance and 42 percent is for owner occupied housing rehabilitation. To meet the goals and objectives, contracts are awarded on a competitive basis to non-profit organizations and local units of

government statewide. Each grantee is then monitored annually to ensure all HOME requirements are being followed correctly.

HOME-RHD continues to provide much needed affordable rental housing. HOME-RHD provides critical housing opportunities for extremely low-income individuals and families as well as low to moderate income families and individuals. HOME-HHR continues to provide opportunities for rehabilitation and purchasing of homes to provide affordable housing.

HOME-TBRA target populations in 2022 were chronically homeless individuals and families, homeless individuals and families with a disability, individuals and families who are at risk of homelessness, and other special needs as designated by the local homeless coalitions and outlined in a specific grant application. As a result, the majority of HOME-TBRA participants are homeless or at risk of homelessness. HOME-TBRA grantees are required to affirmatively market their HOME-TBRA programs to all members of their target populations, which necessarily include people who are homeless or at risk of homelessness. They are also required to identify those target populations least likely to apply for HOME-TBRA and determine what special outreach activities will ensure they are fully informed about HOME-TBRA. Substantial Amendment #4 to the 2015-2019 Consolidated Plan made changes to eligibility criteria that become effective in program year 2019. As a result, DEHCR was able to dramatically increase the numbers of persons served by HOME-TBRA.

HOPWA

Vivent Health (formerly named AIDS Resource Center of Wisconsin), the project sponsor for the state formula HOPWA grant, provides short term rental, mortgage and utility assistance and supportive services to clients. The majority of clients had income and were insured and connected to care; stability in housing staff and collaboration with partner agencies has assisted in this outcome. Vivent Health reports benefitting from the HOPWA Institute to make important revisions to the housing procedures and policies manual. Short-term rental, mortgage and utility assistance was provided to 102 households with HOPWA funding.

HTF

The Wisconsin Housing and Economic Development Authority established specific objective priorities in the annual Housing Trust Fund allocation plan. In 2022, the allocation plan outlined the priorities of ensuring additional units targeted to the extremely low-income population are created within specific ideal parameters. These include projects being located in specific geographic locations, projects utilizing rental assistance subsidies, ensuring projects remain affordable for an extended period of time, incentivizing projects to developer under the scope of Wisconsin's housing policy priority needs to serve households at or below 30% CMI headed by veterans, persons with disabilities and/or impacted by homelessness, and the use of non-federal funds. The annual allocation plan also promoted the rehabilitation of HUD and RD properties along with limiting the Housing Trust Fund request a project makes.

The Wisconsin Housing Economic Development Authority awards applications points for being in certain geographic areas. These include High Need Areas, rural areas without recent Housing Tax Credit awards and Workforce Housing Communities. All areas are defined by WHEDA's Qualified Allocation Plan for the Housing Tax Credit program.

The 2022 Allocation plan promoted projects to incorporate federal, state, or local project-based rental assistance. Forms of rental assistance could include: Section 8 or Section 515 project-based assistance,

project-based vouchers, 811 vouchers, NAHASDA funding for rental assistance, or similar project-based rental assistance or operating subsidy.

All projects awarded Housing Trust Fund dollars in 2022 will enter a Land Use Restriction Agreement upon closing on the funds. The LURA will remain in place for 30 years.

Projects are incentivized to meet the state of Wisconsin's priority housing needs. WHEDA awards points to properties designed to serve the homeless and/or veterans requiring supportive services. WHEDA's Housing Trust Fund program incentivizes the use of non-federal funding sources by offering points for the portion of the total development budget to be paid by non-federal funding sources. Finally, WHEDA provides points to projects which utilize fewer Housing Trust Funds per unit.

CR-15 RESOURCES AND INVESTMENTS

Resources Made Available

Source of Funds	Source (Federal, state local)	Resources Made Available	Amount Expended During Program Year Program Year 2022
CDBG	public - federal	\$48,400,590	\$36,735,578
HOME	public - federal	\$32,289,594	\$9,582,653
ESG	public - federal	\$3,544,614	\$4,205,050
HOPWA	public - federal	\$963,498	\$779,012
HTF	public - federal	\$26,705,430	\$1,303,796

Table 4 – Resources Made Available

Geographic Distribution and Location of Investments

DEHCR has not chosen geographic target areas as a basis for funding allocation priorities. Rather, DEHCR allows all non-entitlement communities to submit applications to programs on a competitive basis. DEHCR's rationale for the priorities for allocating investments geographically is explained by each program.

CDBG

DEHCR does not typically award CDBG funds in entitlement communities that receive CDBG funds from HUD directly. CDBG Non-Housing programs typically receive applications from units of local government (UGLGs) across Wisconsin. Applications are reviewed and funded with those projects and areas that will have a significant impact or make a substantial contribution to enhancing the overall economic well-being of the state receiving priority. The CDBG Housing program distributes funds to seven housing regions, and then the regional administrator of each housing region distributes dollars throughout the region.

HOME

DEHCR does not award HOME funds in participating jurisdictions or consortia that receive HOME funds directly from HUD. Rental Housing Development, Homebuyer and Rehabilitation, and Tenant Based Rental Assistance funds are awarded in the rest of the state (not in participating jurisdictions or consortia) on a competitive basis.

ESG

In Wisconsin, DEHCR, and the cities of Madison, Milwaukee, and Racine receive ESG funds directly from HUD. DEHCR ESG funds are awarded on a formula basis to regional entities throughout the state using indicators of poverty and homelessness.

HOPWA

DEHCR ensures, currently through its contract with Vivent Health (formerly known as AIDS Resource Center of Wisconsin), full coverage in the 68 counties in DEHCR's HOPWA area.

Leveraging

CDBG

CDBG-ED funding is often used as gap financing, allowing it to leverage other sources of funds at the local level. CDBG-Planning and CDBG-Public Facilities for Economic Development (CDBG-PFED) have a 50 percent match requirement. This requirement is often satisfied using funds from local government and other state or federal agencies. Matching funds used on CDBG projects often greatly exceed the minimum match requirements. Substantial Amendment #4 to the 2015-2019 Consolidated Plan made changes to match criteria that became effective in program year 2019. The State updated the match requirement for CDBG-Public Facilities and CDBG-Planning awards to require \$1 in match for every \$2 awarded, but waives the match requirement for CDBG-Planning projects for broadband internet expansion.

HOME

HOME funding is used to leverage additional finances to fund affordable housing programs. The 25 percent match requirement for HOME programs is met through a combination of private finance, cash contributions investments from state and local government sources, donated land, materials, service, and labor. DEHCR meets the 25 percent match requirement through grantee agencies providing the match and state programs that provide significant matching funds (Housing Cost Reduction Initiative/Critical Assistance, Wisconsin Department of Health Services, Wisconsin Department of Corrections, DOA, Wisconsin Housing and Economic Development Authority [WHEDA] Home Loan Program, and the WHEDA Foundation). DEHCR continues to work with WHEDA, the state of Wisconsin's administrators of the Low-Income Housing Tax Credits (LIHTC), to coordinate affordable housing resources. WHEDA staff continues to provide input and advice to DEHCR staff on the Rental Housing Development Program (HOME-RHD).

ESG

The ESG program did not meet its match requirement this year, as shown in CR-75. In 2022, \$1,515,000 in state homelessness prevention and rapid re-housing funding was awarded to ESG grantees along with federal ESG funding. This funding is used to satisfy a portion of the match requirement, and the rest of the match requirement is met through federal, state, and local government funding, private donations, and donated materials, services, and labor.

HTF

During the PY 22 awards cycle, five awarded HTF projects leveraged an additional \$57 million for projects committed during the CAPER reporting period.

Fiscal Year Summary HOME Match

Fiscal Year Summary - HOME Match	
1. Excess match from prior Federal fiscal year	\$95,586,411
2. Match contributed during current Federal fiscal year	\$5,138,139
3. Total match available for current Federal fiscal year (Line 1 plus Line 2)	\$100,724,550
4. Match liability for current Federal fiscal year	\$9,572,169
5. Excess match carried over to next Federal fiscal year (Line 3 minus Line 4)	\$91,152,381

Discuss the difference between goals and outcomes and problems encountered in meeting these goals

CDBG

The CDBG-H program did not meet the planned number of units assisted for homebuyer and rental rehabilitation. The CDBG-H program has experienced a shortage of contractors to work in the program; this is especially true of trade contractors including plumbers and electricians. In addition, the housing program has seen a rise in the number of projects exceeding \$50,000 to make the property decent, safe and sanitary.

HOME

The average amount of HOME-HHR assistance provided to homebuyers in Program Year 2022 was higher than planned by approximately 60 percent (\$19,803 planned versus \$33,159 actual) which is outside the variance rate for the program. This increase in cost corresponded with a lower number of homebuyers receiving assistance; as fewer units were available during the 2022 program year. Higher assistance amounts were needed to meet affordability goals. To make more homes affordable to Low-Moderate Income (LMI) families, a greater supply of available housing was required.

The average amount of assistance provided to homeowners for rehabilitation in Program Year 2022 was more than 25% higher than planned (\$47,360 planned versus \$59,579 actual) which is outside the variance rate for the program. The higher cost can be attributed to increasing construction and labor

costs and scope of work that needs to be done. Again, a lack of available houses to rehabilitate was experienced in Wisconsin.

HOME-TBRA provided rental assistance to 1,935 households which were homeless or at risk of homelessness. The state also continued a service approach which required grantees to cover more than one county. Most grantees also required a contract extension as there are significant shortfalls in available housing in rural areas. The improving housing market in rural areas of Wisconsin represented a major factor in locally-experienced rent increases and a shortage of affordable units available for rent. There exists a lack of inventory in safe, sanitary, and affordable rental housing opportunities throughout the entire state of Wisconsin.

The HOME-RHD program met the goal for construction and/or rehabilitation of affordable rental units.

HTF

The HTF program set a goal of completing one application cycle during PY 22 which was held in December 2022. During 2022, construction was completed on 68 HTF units and is in process on an additional 54 HTF units for a total of 122 units. Projects funded in PY 22 leveraged approximately \$57 million in non-federal funding sources. In addition, 49 units are committed to be designated for the homeless or veterans. Lastly, the average award per unit created was \$60,962, which was within the projected cost per unit.

Four projects were completed in a high needs census tract during PY 22. No awards were made in rural areas without a recent tax credit award or for a workforce housing community. As the Housing Tax Credit program works to emphasize more rural development projects being completed, WHEDA anticipates this changing in the near future. WHEDA is contemplating a separate targeted funding cycle for projects located in rural areas without recent tax credit award and workforce housing communities to strengthen support for these identified needs.

Discuss how these outcomes will impact future Annual Action Plans

CDBG

Grantees continue to reach out to the contractor base in their service area and recruit contractors for the CDBG-H program. The CDBG-H program continues to make funds available to assist contractors in becoming trained in lead-safe work practices, lead abatement, and lead risk assessment. DEHCR is building on efforts to encourage collaboration between CDBG-H and home weatherization providers to maximize available resources.

HOME

DEHCR can work to develop more contractors and affordable housing. For example, funding could be used to provide more lead paint training to assist contractors in becoming certified in lead abatement procedures, risk assessment, and lead safe work practices. DEHCR can also work with grantees to develop more housing units in areas where demand for housing is higher. Aging homes throughout the areas of Wisconsin that DEHCR serves will continue to drive up the need for and the cost of rehabilitation.

In the 2020-2024 Consolidated Plan, the HOME TBRA program's client eligibility was expanded to enable grantees to provide rental assistance to individuals and families who are experiencing homelessness or

at risk of homelessness without the requirement of a disabled family member. As a result, all HOME TBRA participants are homeless or at risk of homelessness.

HOME-TBRA grantees are required to affirmatively market their HOME-TBRA programs to all members of their target populations, which necessarily include people who are homeless or at risk of homelessness. They are also required to identify those target populations least likely to apply for HOME-TBRA and determine what special outreach activities will ensure they are fully informed about HOME-TBRA. Substantial Amendment #4 to the 2015-2019 Consolidated Plan made changes to eligibility criteria that become effective in program year 2019. As a result, DEHCR was able to continue to serve a higher number of persons served by HOME-TBRA in program year 22 as compared to the average served prior to Substantial Amendment #4. HOME-TBRA funded successful placements continue to be affected by the lack of safe, sanitary and affordable rental housing opportunities statewide.

HTF

WHEDA will adjust projected units created to reflect the lower average cost per unit. Additionally, WHEDA plans to evaluate options for added incentives to increase the number of HTF units created per HTF dollar invested. WHEDA plans to encourage HTF-funded new units to serve as workforce housing as well as located in rural areas of the state. WHEDA plans to strengthen the connection of the application processes of Housing Trust Funds and Housing Tax credits to increase both the alignment of the two funding sources as well as the efficiency in funds deployment. Lastly, WHEDA will adjust award sizing methodology to increase incentive for 30% units.

Number of Persons Served

Number of Persons Served	CDBG Actual	Home Actual	HTF Actual
Extremely Low-income	89	593	68
Low-income	97	1,450	
Moderate-income	190	43	
Total	376	2,086	

Table 13 – Number of Persons Served**Additional Narrative**

All HOME-TBRA data comes from HMIS.

CR-25 HOMELESS AND OTHER SPECIAL NEEDS

Evaluate the jurisdiction's progress in meeting its specific objectives for reducing and ending homelessness through:

Reaching out to homeless persons (especially unsheltered persons) and assessing their individual needs

HOME

With the Substantial Amendment #4 made to the 2015-2019 Consolidated Plan, HOME TBRA program eligibility was expanded to enable grantees to provide rental assistance to homeless individuals/families and individuals/families who are at risk of homelessness without the requirement of a disabled family member. As a result, all HOME TBRA participants are homeless or at risk of homelessness.

All HOME TBRA grantees are required to affirmatively market their programs to all qualifying members of their target populations, which include people who are experiencing homelessness or at risk of becoming homeless. Grantees are also required to identify those target populations least likely to apply for TBRA assistance and determine what special outreach activities are needed to ensure that their target populations are fully informed about the HOME TBRA program.

HOME TBRA programs are strongly encouraged to participate in Coordinated Entry and utilize any applicable Coordinated Entry procedures to evaluate client eligibility. Also, all grantees must comply with all Homeless Management Information System (HMIS) requirements. HMIS was implemented at the continuum of care (CoC) level; all Wisconsin HOME TBRA programs are active participants.

The Division of Energy, Housing, and Community Resources (DEHCR) encourages its HOME TBRA grantees to adopt a 'Housing First' philosophy for their programs. According to the National Alliance to End Homelessness, "Housing First is a homeless assistance approach that prioritizes providing people experiencing homelessness with permanent housing as quickly as possible – and then providing supportive services as needed." This approach was created to end homelessness by prioritizing a client's choice in both housing selection and in-service participation.

ESG

Coordinated entry is fully implemented by all four Wisconsin HUD Continua of Care to ensure that resources are targeted towards those who need them most. Coordinated entry assesses individual needs and directs persons to the program that is best equipped to meet their needs. Those who have the most acute needs, such as unsheltered persons or persons with serious mental illness, are directed towards programs such as permanent supportive housing that are best equipped to work with clients with high needs. ESG recipients are required to participate in the implementation and use of coordinated entry.

Street outreach to unsheltered persons is necessary to engage them and work towards housing stability. DEHCR encourages the use of best practices in street outreach which seek to meet basic needs and engage those experiencing homelessness in a respectful way.

Addressing the emergency shelter and transitional housing needs of homeless persons

HOME

Across fifteen programs, the HOME TBRA program provided 1,935 households with up to 24 months of transitional housing assistance in the form of rent, security deposits, and utility assistance across 66 Wisconsin counties. Target populations of the HOME TBRA program are experiencing homelessness, at risk of homelessness and other special needs as designated by the local continuum of care (COC) and submitted grant application. As a result, most HOME TBRA clients are classified as homeless or at risk of homelessness. With the Substantial Amendment #4 made to the 2015-2019 Consolidated Plan, HOME TBRA program eligibility was expanded to enable grantees to provide rental assistance to homeless individuals/families without the requirement that they have a disabled family member.

ESG

Emergency shelter is a critical part of the homeless service system. Shelters provide temporary refuge and often serve as the “front door” or first place of entry to those experiencing homelessness. As such, it is important that emergency shelters have the ability to connect those experiencing homelessness with the resources needed to exit homelessness, using the lightest touch possible. Approximately 83 percent of 2022 ESG funding was used for emergency shelter and rapid re-housing programs. In 2022, for the seventh time, DEHCR required ESG applicants to assess homeless system performance and use performance data when distributing funding at the local level. In many cases, applicants assessed shelter data to meet this requirement, and allocated more funding to shelters who are serving higher numbers of clients, moving clients into permanent housing quickly, and best ensuring that clients do not return to homelessness. New transitional housing projects are not funded by the ESG program, but DEHCR allows the use of transitional housing cases where it has been demonstrated to be efficient and effective.

Helping low-income individuals and families avoid becoming homeless, especially extremely low-income individuals and families and those who are: likely to become homeless after being discharged from publicly funded institutions and systems of care (such as health care facilities, mental health facilities, foster care and other youth facilities, and corrections programs and institutions); and, receiving assistance from public or private agencies that address housing, health, social services, employment, education, or youth needs

ESG

Through its involvement with the Interagency Council on Homelessness, which was formally codified in state statute in 2017, DEHCR works with the four Wisconsin CoCs and other state agencies which house publicly funded systems that can discharge persons into housing instability and homelessness. Collaboration on this Council allows these agencies to work together towards discharge planning solutions. In 2022, the Council published a statewide Plan entitled “Welcoming Wisconsin Home: A Statewide Action Plan for Homelessness 2021-2023”. Currently, the Council is working on implementing the Plan. In addition, collaboration on this Council has led to interagency efforts to end homelessness. DEHCR has collaborated with the Wisconsin Department of Children and Families to fund a program targeted at youth who have aged out of the foster care system and are experiencing homelessness or at risk of homelessness. Interagency Council members regularly exchange information relative to programmatic requirements, eligibility for funding and distribute this information to reduce organizational “silos” and create synergies.

HOPWA

The HOPWA program provided short-term rental, mortgage, utility and supportive services assistance was provided to 102 households with HOPWA funding.

Helping homeless persons (especially chronically homeless individuals and families, families with children, veterans and their families, and unaccompanied youth) make the transition to permanent housing and independent living, including shortening the period of time that individuals and families experience homelessness, facilitating access for homeless individuals and families to affordable housing units, and preventing individuals and families who were recently homeless from becoming homeless again

HOME

The HOME TBRA program can only subsidize units that meet HUD's Fair Market Rent (FMR) and rent reasonableness guidelines; therefore, HOME TBRA grantees assist beneficiaries in locating and selecting units that meet these affordable housing guidelines. HOME TBRA funds can serve individuals and households who are experiencing homelessness or at risk of homelessness.

ESG

The ESG program requires each local homeless coalition to have a rapid rehousing program and encourages local CoCs to spend more than the minimum requirement on rapid re-housing. Rapid re-housing focuses on quickly moving households out of homelessness and into permanent housing. This has the potential to decrease the length of time participants spend homeless, taking strain off of the shelter system. The funding formula which distributes ESG funding takes "exits to permanent housing" and "returns to homelessness" into account.

Homeless prevention programs are also funded by ESG and other state funds. These funds allow agencies to keep individuals and families from becoming homeless in the first place. This allows families to avoid potential trauma, upheaval, and an eviction on their record. To promote efficient use of funds, DEHCR encourages targeting of prevention funds towards those with the greatest need.

HTF

The Housing Trust Fund incentivizes the creation of permanent housing for individuals experiencing homelessness by providing competitive scoring points for projects that assist persons and families experiencing homelessness. The definition of residents eligible for these units includes individuals currently experiencing homelessness or who are prone to or at imminent risk of becoming homeless. Projects providing units targeted to this population must also make available accompanying services to support these individuals. While it is a program requirement, HTF awards cannot directly be used to pay for the cost-of-service provision.

CR-30 PUBLIC HOUSING

Actions taken to address the needs of public housing.

In Wisconsin, community and county Public Housing Authorities (PHAs) own and manage the public housing developments located throughout the state. The PHAs receive funding directly from HUD.

Actions taken to encourage public housing residents to become more involved in management and participate in homeownership.

The Division of Energy, Housing and Community Resources does not own, operate or manage any public housing units, and as a result, the State is not directly involved in public housing improvement, or in the development or delivery of programs and services for public housing residents.

Actions taken to provide assistance to troubled PHAs.

The State reviews the PHA's annual plans in developing its Consolidated Plan and reviews PHA plans for consistency with the State's Consolidated Plan.

CR-35 OTHER ACTIONS

Actions taken to remove or ameliorate the negative effects of public policies that serve as barriers to affordable housing such as land use controls, tax policies affecting land, zoning ordinances, building codes, fees and charges, growth limitations, and policies affecting the return on residential investment

The state included and submitted its Analysis of Impediments (AI) with its 2020-2024 Consolidated Plan. Wisconsin has been making progress towards eliminating the impediments identified in its AI and intends to continue to utilize applicable federal funding towards the furtherance of its goals. The Wisconsin “home rule” provision means that zoning ordinances are left to the judgment of local governments. Sometimes local governments, in an attempt to cover the broad-based costs of public facilities improvements or to slow down a boom in new housing starts will choose to impose impact fees, increasing lot sizes and setbacks, or establishing minimum square foot requirements for new residences.

State statutes do allow local governments to waive impact fees for affordable housing developments, but it is not known how often these fees are actually waived. The net effect of these local actions may make housing more expensive than it would be without the new fees and regulations which may represent a barrier to affordable housing for people in lower income brackets.

DEHCR respects this constitutional policy of local control, and therefore cannot directly intervene to remove barriers to affordable housing that results from a local ordinance’s imposition of regulations or fees. DEHCR and other state agencies do work to ameliorate barriers to affordable housing in several ways, including:

- Support for the WIHousingSearch.org website. This free online resource provides Wisconsin individuals and families a searchable database of statewide affordable rental housing.
- DEHCR works to improve the stock of affordable housing in non-entitlement jurisdictions through its state- and federally funded housing programs.
- WHEDA’s LIHTC program offers a reduction in tax liability to property owners and private investors to encourage the development of affordable rental housing.
- WHEDA, the State of Wisconsin’s designated Housing Trust Fund administrator, will utilize those funds to ameliorate barriers to affordable housing and develop affordable rental housing.

DEHCR will continue to work with grantees to minimize the impact of these fees and other restrictions.

Actions taken to address obstacles to meeting underserved needs

CDBG

The primary obstacle to meeting underserved needs in Wisconsin is a lack of adequate funding. DEHCR will continue efforts to ensure maximum state coverage with program resources. Emphasis will also be placed on enhancing local capacity building and disadvantaged and under-served areas.

DEHCR will continually evaluate its administration of CDBG funds in order to meet Wisconsin’s affordable housing and community and economic development needs. DEHCR will continue to work collaboratively with Units of General Local Government (UGLGs) so that nonprofit entities and

businesses will be able to receive grants, loans, and/or equity investments for activities that are both allowed under the federal guidelines and best address the needs of the local community.

DEHCR will continue proven program approaches and efforts to improve strategies. It will explore more efficient and effective approaches to address community needs with maximum responsiveness, including:

- Collaborate with WHEDA, HUD, USDA Rural Development, and US Department of Commerce-Economic Development Administration to:
 - Address special housing and community and economic development opportunities.
 - Sponsor training and technical assistance for local officials. This will increase knowledge of and access to available state and federal programs and resources.
- Review current policies and procedures related to maximizing the efficient reuse of program income funds to meet critical needs. DEHCR will pursue modifications where redirecting resources could address needs in programs with unmet critical needs.
- DEHCR is building on efforts to encourage collaboration between CDBG-H and home weatherization providers to maximize available resources.

The CDBG-H program continues to serve 69 counties in the state of Wisconsin. The remaining 3 counties receive direct assistance from HUD. This approach ensures all LMI households have access to housing resources.

HOME

DEHCR will continue efforts to ensure maximum state coverage with program resources. Currently, the HOME-HHR program serves 65 counties through Wisconsin that do not receive HOME funds directly. The program will also continue to review grantee allocations to best serve the 65 counties. DEHCR continues to collaborate with WHEDA, HUD, USDA Rural Development, and the US Department of Commerce-Economic Development Administration to address special housing needs throughout the state.

ESG

The primary obstacle to meeting the underserved needs of persons experiencing homelessness is lack of adequate funding. The Emergency Solutions Grant/Homelessness Prevention Program/Housing Assistance Program (EHH), which includes a mix of federal and state funding, is working to increase the impact of scarce funding by emphasizing performance in the application process, and rewarding the highest performing grantees with additional funding. Efforts taken in other programs to increase the supply of affordable housing will also help to meet the needs of persons experiencing homelessness.

HTF

The Housing Trust Fund program provides assistance to projects that incorporate 30% CMI units – set aside for very low-income individuals.

Actions taken to reduce lead-based paint hazards

The CDBG-H and HOME programs require all pre-1978 homes be rehabilitated in a lead-safe manner. 112 CDBG-H housing units (owner occupied =112, rental units = 0) and 115 HOME-HHR units were rehabilitated using lead-safe work practices (see IDIS HOME lead-based paint report) during the 2022 program year.

The programs will continue to ensure all rehabilitation on pre-1978 homes is done in a lead-safe manner, including abatement, interim controls or standard practices, lead safe work practices, visual assessment/paint stabilization or other actions required by federal regulation. All projects that utilize lead-safe work practices receive a lead clearance to ensure the property is safe from lead hazards. All units subsidized by HOME-TBRA funding must pass a HUD Housing Quality Standards (HQS) inspection before a household moves in to the unit and at least once annually thereafter. HQS requires that units built before 1978 and occupied by households with least one child under the age of six have little to no peeling paint on most interior and exterior surfaces. CDBG-H requires that units built before 1978 have little to no peeling paint on most interior and exterior surfaces regardless of the age of the housing occupants. Additionally, the ESG program requires grantees to comply with all applicable lead-based paint remediation and disclosure laws.

Funding for lead training is made available to assist contractors in becoming trained in lead-safe renovator and lead abatement.

HTF environmental requirements specify that all projects must be free of hazardous materials, contamination, toxic chemicals, gases, and radioactive substances. Especially where a hazard could affect the health and safety of occupants or conflict with the intended use of the property. For multifamily properties (4 or more units) – a Phase I ESA–ASTM is required. If the Phase I ESA identifies RECs, a Phase II ESA–ASTM will be required. If the Phase II indicates the presence of hazardous substances or petroleum products above applicable local, state, tribal or federal (LSTF) screening levels, coordination with the relevant LSTF oversight agency will be required to complete the remediation process and obtain a determination that no further action is required.

Actions taken to reduce the number of poverty-level families

A number of grantees require their recipient households, as a condition of assistance, to become as self-sufficient as possible. DEHCR encourages the development of self-sufficiency components within an applicant's program design. Through these efforts, DEHCR seeks not only to stabilize households in crisis, but also to reduce households' dependence on public assistance and to begin developing pathways out of poverty.

CDBG

DEHCR and the Wisconsin Economic Development Corporation (WEDC) will continue collaborative efforts with WHEDA and USDA-Rural Development to help local communities, particularly in rural areas, be aware of programs available to them and ways to leverage dollars to maximize both the impact of program dollars and the quality of housing and community development.

In the CDBG-PFED and CDBG-ED programs, priority will continue to be given to those projects that produce high wages and offer decent health insurance where the employer pays more than half the costs of the premiums. High wages are defined as an hourly amount that will provide for disposable income for a household after meeting basic shelter, food, and health costs.

HOME

HOME-HHR grantees are encouraged to hire Section 3 employees and train others in the construction industry that are considered Section 3.

ESG

In the ESG program, a number of grantees work with their clients to ensure that they become as self-sufficient as possible through case management and referral to mainstream resources.

HTF

The Housing Trust Fund program provides assistance to projects that incorporate 30% CMI units – set aside for very low-income individuals.

Actions taken to develop institutional structure

The need for CDBG housing and community development projects continues to exceed available funding. The allocation of CDBG funds that occurred in Program Year 2020 allowed DEHCR to focus needed resources on housing and public facility projects without adversely affecting DEHCR’s ability to support appropriate economic development projects.

DEHCR supports collaborative efforts among local agencies and is working with partner agencies to identify opportunities for weatherization and housing to work together. DEHCR has hosted regional collaboration meetings to encourage agencies to work together and to identify and remove barriers. DEHCR believes this approach will lead to improved efficiencies for both programs and the clients we serve.

HOME

DEHCR also has HOME programs to complement existing networks of service providers. DEHCR continues its long-term support of stable non-profit organizations that provide services in areas covering most of the state. Collaborative efforts among local agencies are strongly encouraged. Training and technical assistance continue to improve the delivery of housing and homeless assistance. The HOME-HHR program continues to work with approximately 16 non-profit organizations to develop a statewide network. DEHCR also works with partner agencies to identify opportunities for weatherization and housing to work together. DEHCR believes this approach will lead to improved efficiencies for both programs and the clients we serve.

ESG

DEHCR continuously works to update the ESG program manual on a regular basis and provides training and technical assistance to grantees statewide. DEHCR encourages grantees to strengthen Continua of Care systems and collaborate with housing providers and mainstream resources.

HTF

Training additional staff members and technical assistance provided from WHEDA’s legal department to ensure program regulation compliance from developers continues to improve the efficient delivery of Housing Trust Funds.

HTF monitoring processes are continually being updated and WHEDA is conducting additional training to staff members across the organization. Staff throughout WHEDA are being asked to help ensure all program requirements are being met and help innovate the allocation of funds. WHEDA’s legal department has been involved with ensuring certain contingencies and language is included in internal loan committee approval of the deployment of funds and project commitment letter.

Actions taken to enhance coordination between public and private housing and social service agencies

In addition to the connection with WHEDA, DEHCR works in collaboration with many state agencies and partners as well as participates in coalitions of public and private sector housing organizations including:

1. Wisconsin Collaborative for Affordable Housing
2. Wisconsin Fair Housing Network
3. Childhood Lead Poisoning Committee
4. Wisconsin Fresh Start Projects
5. Interagency Council on Homelessness
6. Council of State Community Development Agencies (COSCDA)
7. Balance of State Continuum of Care
8. Racine Continuum of Care
9. Milwaukee Continuum of Care
10. Madison/Dane Continuum of Care

Identify actions taken to overcome the effects of any impediments identified in the jurisdiction’s analysis of impediments to fair housing choice

Units of General Local Governments who receive CDBG funding in the CDBG-PF, CDBG-PLNG, CDBG-PFED, and CDBG-ED programs are required to complete three actions to affirmatively further fair housing. DEHCR verifies these actions are completed through its program monitoring.

IMPEDIMENT #1: LACK OF STATE LAWS EQUIVALENCE TO FEDERAL LAW.

Because the state’s Open Housing Law did not include the provision of legal representation for the complainant or respondent in discrimination cases that proceed to administrative hearings or court, HUD has not certified Wisconsin as a “substantially equivalent” jurisdiction. This could result in less reporting of fair housing violations to the state as well as a potential loss of federal funds for administration, enforcement, education and outreach available to substantially equivalent jurisdictions.

ACTION TO ADDRESS IMPEDIMENT #1: LACK OF STATE LAWS EQUIVALENCE TO FEDERAL LAW.

Wisconsin Open Housing Law revisions made as part of the 2005-2007 Biennial Budget makes Wisconsin law equivalent to federal law. The revised Open Housing Law requires representation for the complainant by the Attorney General in cases where both the Department of Workforce Development and the Attorney General find probable cause. Representation by the Attorney General is provided for administrative and civil hearings, where the complainant elects to do so. In addition, at the request of the Department of Workforce Development the Attorney General will file a petition for a temporary injunction. Following the law changes, Wisconsin applied to HUD for substantial equivalency but it was not approved.

CDBG grantees are required to adopt a Fair Housing ordinance and to affirmatively further their Fair Housing ordinance by doing a minimum of three Fair Housing activities during the contractual period. Activities completed range from mailing informational letters to local realtors and lenders, doing local radio talks that cover Fair Housing principles, and writing articles to local newspapers that educate citizens about Fair Housing requirements, etc.

In addition, CDBG-Housing staff educated all of its potential and current grantees on Fair Housing laws and requirements during Application Training and Implementation Training.

IMPEDIMENT #2: LOCAL LAND-USE REGULATIONS.

Wisconsin’s tradition of “home rule”, embodied in the state constitution, means municipalities control most zoning and land use decisions (the siting of community residential facilities and environmental regulations are exceptions). The concern is that “home rule” allows communities to use ordinances to keep affordable and multifamily housing—frequently the routes by which lower-income, often minority, households enter a community—from being developed. In addition, the use of impact fees for new development raises the cost of new housing and increases the value of existing housing, thus generally reducing affordability. In short, zoning and impact fees can have the effect of “disparate impact”. Policies that appear neutral on their face may actually increase segregation.

ACTION TO ADDRESS IMPEDIMENT #2: LOCAL LAND-USE REGULATIONS.

The success of state HOME recipients in promoting their program locally and providing affordable housing opportunities to all racial and ethnic groups is evidenced by the reporting identified under CR-10. Per the report, non-white households account for 9.33 percent of the HOME rental projects, homebuyer projects, and homeowner rehab projects. These percentages compare favorably with the 2016 American Community Survey estimate of a 7.2 percent ethnic and minority population for the Wisconsin Balance of State (the category that closely aligns with the state’s jurisdiction). In addition, non-white households account for 35.5 percent of the HOME-TBRA program recipients.

The HOME-RHD program continues to fund projects with three, four, or occasionally more bedrooms throughout the Balance of State area. HOME-RHD partners with WHEDA LIHTC on many of these projects.

The scoring system for the WHEDA LIHTC program applications includes preference points for developing large family units (3-bedroom or larger) intended for occupancy by residents with special needs, and units with accessible design.

IMPEDIMENT #3: LOCAL DISCRIMINATION IN CONSUMER LENDING.

The administrative code (DFI-Bkg 80.85) on discrimination in the granting of credit prohibits discrimination on the basis of sex or marital status only. Currently, a complainant would have to seek remedy from the Department of Workforce Development, Division of Equal Rights under the Open Housing Law.

ACTION TO ADDRESS IMPEDIMENT #3: LOCAL DISCRIMINATION IN CONSUMER LENDING.

The Wisconsin Department of Financial Institutions (DFI) has amended ss. DFI-Bkg 80.85 (1) and (2), and created s. DFI-BKG 80.85 (5), Wis. Admin Code (DFI-WCA1 Wisconsin Consumer Act), effective 09/17/05, to expand the bases of discrimination for consumer lending by banks. The rule makes discrimination on a prohibited basis in the granting or extension of credit an unconscionable credit practice. The rule now defines prohibited basis to include sex, marital status, age provided the applicant has the capacity to enter into a binding contract, race, creed, religion, color, disability, national origin, ancestry, sexual orientation, or membership in the military forces of the United States or this state; that all or part of the applicant’s income derives from any public assistance program; and that the applicant has in good faith exercised any right under the Consumer Credit Protection Act or any state law.

IMPEDIMENT #4: PREDATORY LENDING.

While the effects of past predatory lending can still be seen across the state, and loans with abusive terms have created hardships among thousands of vulnerable households, recently enacted Wisconsin and federal laws have all but eliminated any new predatory loan activities from occurring. Stronger regulatory standards and heightened consumer awareness have improved lending practices in the state.

ACTION TO ADDRESS IMPEDIMENT #4: PREDATORY LENDING.

Although recent law changes have improved the lending environment, DFI continues to closely monitor mortgage bankers, brokers, and originators. In addition, they have made available some foreclosure prevention funds to assist borrowers that may still be affected by lending practices of the past.

In addition, DEHCR staff continues to support homebuyer education which includes predatory lending training. Lending options, which includes a predatory lending discussion, is part of mandatory homeowner education that all households receiving homebuyer assistance are required to attend.

Finally, one of the required activities in DEHCR's annual fair contract, currently with the Metropolitan Milwaukee Fair Housing Council (MMFHC), is to provide information and training on Fair Lending Laws and practices.

IMPEDIMENT #5: PREDATORY APPRAISALS.

Predatory appraisals, whether due to collusion between appraisers and lenders or due to pressure put on appraisers by a third party, decrease the affordability of housing by increasing fees that are based on the value of the home, and can result in decreased equity from homeownership. Legal protection against predatory appraisals is limited. Appraisers are required by statute and professional ethics guidelines to appraise properties honestly, rather than on a predetermined basis.

ACTION TO ADDRESS IMPEDIMENT #5: PREDATORY APPRAISALS.

The changes in state and federal laws that regulate lending practices have made predatory appraisals less common statewide.

In Wisconsin, a real estate appraiser is a person engaged in the practice of real estate appraisal. Real estate appraisal means providing an analysis, opinion, or conclusion relating to the nature, quality, value, or utility of specified interests in or aspects of real estate. Wisconsin grants three types of credentials; licensed appraiser, certified residential appraiser, and certified general appraiser.

Federal mandate requires that after January 1, 1993, all appraisers must be licensed or certified by a state licensing agency in order to conduct appraisals which involve "federally related transactions." However, appraisers are not required to be licensed or certified in Wisconsin in order to perform "non-federally related transactions."

Licensing involves taking and passing a real estate appraisal exam. A handbook has been prepared by the Wisconsin Department of Safety and Professional Services to help applicants prepare for the exam. Among the subjects covered are social, governmental, legal, and regulatory aspects of real estate markets.

IMPEDIMENT #6: HOUSING STOCK.

The housing stock in Wisconsin provides limited housing choices for people with mobility impairments and for large families. Much of Wisconsin's housing stock is older and is not accessible for people with mobility impairments to do an initial inspection, thus limiting housing choice.

Housing choices for larger families are limited due to occupancy standards and the low availability of homes with many bedrooms. According to the 2018 American Community Survey, approximately 60 percent of Wisconsin's total housing units had three or more bedrooms. However, in rental housing, more than 76 percent of the rental housing stock had two or fewer bedrooms.

ACTION TO ADDRESS IMPEDIMENT #6: HOUSING STOCK.

Homebuyer new construction houses that were completed and occupied during this time period were constructed to provide for first floor access.

State-administered housing programs address the need for rental units for larger families through the HOME housing programs, including HOME-RHD, which continues to fund projects with three, four, or occasionally more bedrooms. The WHEDA LIHTC and HTF programs provide preference points for developing large family units (3-bedroom or larger), units intended for occupancy by residents with special needs, and units with accessible design.

HOME-RHD funds projects with 0 (efficiency) bedrooms, up to four, or occasionally more bedrooms, and partners with WHEDA LIHTC on many of these projects.

For this reporting period, CDBG, HOME, NSP1, NSP3, and state-funded programs continued to provide housing assistance for special needs households.

IMPEDIMENT #7: LANGUAGE BARRIERS.

Wisconsin is home to many people who speak English as a second language (ESL) with varying levels of competency in the English language. It is possible that this population will continue to increase due to immigration. Wisconsin's ESL population tends to be lower-income, and thus have limited resources. Households with limited English language capacity are statistically less likely to be aware of their rights and of resources available to aid in cases of housing discrimination. In addition, these households may not be aware of other housing resources available, putting these households at a disadvantage in securing housing. Even households that are relatively fluent in English may find it easier to understand documents available in their first language.

ACTION TO ADDRESS IMPEDIMENT #7: LANGUAGE BARRIERS.

Some of DEHCR's grantees have access to interpreters to help conduct outreach and translate information for non-English speaking persons. They also produce non-English language program brochures.

DEHCR provided \$62,150 in PY 22 for a contract with the Metropolitan Milwaukee Fair Housing Council (MMFHC) to address language barriers and to undertake a variety of fair housing related activities in both HOME entitlement and non-entitlement areas, including:

- **Fair housing complaint intake, investigation and referrals.** MMFHC received and processed complaints regarding discrimination based on race/color, national origin, sex, religion,

disability, familial status, age, marital status, lawful source of income, sexual orientation, and ancestry.

- **Conducting fair housing testing.** As a method of investigating complaints, MMFHC conducted fair housing testing activities, including activities in HOME non-entitlement areas to determine if treatment of various home seekers was occurring in areas around the state.
- **Offering referral services to clients with non-fair housing inquiries.** MMFHC provided referral services to clients with questions on topics such as rent abatement, code violations, evictions, and repair-related concerns, including those in HOME non-entitlement areas.
- **Technical assistance in fair housing to Wisconsin residents, housing providers, and social service agencies throughout Wisconsin.** MMFHC provided technical assistance, including instances in HOME non-entitlement areas to the general public, government agencies, housing providers, social service agencies and attorneys. The assistance provided included clarification of fair housing law, information on legal and/or administrative interpretation of the law, information on the nature and extent of housing discrimination, unfair lending, and mortgage rescue scams.
- **Distribution of fair housing and fair lending educational materials.** MMFHC distributed significant fair housing and fair lending materials on numerous occasions throughout Wisconsin.
- **Conducting presentations, workshops, or trainings to provide information on fair housing and fair lending laws and practices.** MMFHC planned and conducted workshops in in various locations around the state that covered fair housing law, fair lending, and predatory lending.

CR-40 MONITORING

Describe the standards and procedures that will be used to monitor activities carried out in furtherance of the plan and will be used to ensure long-term compliance with requirements of the programs involved, including minority business outreach and the comprehensive planning requirements.

CDBG

Units of General Local Government who receive CDBG funding in the CDBG-PF, CDBG-PLNG, CDBG-PFED, and/or CDBG-ED program are monitored prior to project completion. A risk matrix is completed prior to monitoring to identify risk criteria. The outcome of the risk matrix determines whether a desk monitoring or on-site monitoring visit is required. Minority Business Enterprises/Women's Business Enterprises (MBE/WBE) utilization is reported by grantees. Funded projects are reviewed for inclusion with UGLG comprehensive plans.

Annually, the CDBG-H program develops a risk analysis of the grantees to prioritize grantees for monitoring. Each of the CDBG-H Regions are monitored yearly for compliance. In addition, the program staff conducts two monitoring reviews each month on the locally-held Revolving Loan Funds for program compliance. Among the items included in the review are:

- Financial management records,
- LMI benefit,
- Program outreach efforts,
- Administrative files,
- Individual project files, and
- On-site inspection of completed projects.

Program staff work with grantees to correct any identified deficiencies through the monitoring process. DEHCR annually lists its monitoring plan for the program year on its website including monitoring goals by program. On-site inspections were postponed from the PY 2021 period due to the Department's moratorium stemming from COVID-19. However, due to waivers published 4/10/2020, extension and revision 12/4/2020, and 9/27/2021, the work was able to restart during PY 2022.

HOME

Grantees are monitored once a year. Annually, the HOME-HHR housing program develops a risk analysis of the grantees to prioritize grantees for desk or on-site monitoring. Based on the number of grantees, program staff conducts two monitoring reviews each month for compliance. Any findings and concerns are documented, and a corrective action is developed to ensure long term compliance of program requirements. The HOME-HHR program did not produce additional affordable rental housing units in PY 22.

HOME-RHD program staff develops a risk analysis of projects that are within their affordability period. Staff determine how often to monitor projects based on the results of the analysis. The program staff monitors all projects within twelve months of project completion, and then, based on the results of the risk analysis, projects are scheduled for monitoring at least once every three years. The HOME-RHD program staff conducts a minimum of two monitoring reviews each month; however, they frequently conduct additional monthly monitoring depending on the number of projects identified during the risk analysis. On-site inspections were postponed from the PY 2021 period due to the Department's

moratorium stemming from COVID-19. However, due to waivers published 4/10/2020, extension and revision 12/4/2020, and 9/27/2021, the work was able to restart during PY 2022.

Additionally, HOME-RHD has a Memorandum of Understanding (MOU) with WHEDA to jointly conduct on-site monitoring. Projects that receive on-site monitoring conducted by WHEDA undergo desk monitoring by program staff. Staff issues a formal monitoring letter to the grantee after completing the monitoring inspection. The letter outlines any issues or concerns found during the monitoring, identifies corrective action(s), and issues a date by which the grantee must have all actions completed.

Among the items included in HOME-HHR and HOME-RHD reviews are:

- Financial management records,
- LMI benefit,
- Program outreach efforts,
- Administrative files,
- Individual project files, and
- On-site inspection of completed projects.

HOME-TBRA program subgrantees are monitored on an annual basis. During the monitoring process, programmatic procedures, fiscal procedures, client files, an HQS inspection of at least one HOME-TBRA-funded unit, and interviews with HOME-TBRA beneficiaries are completed. On-site inspections were postponed from the PY 2021 period due to the Department's moratorium stemming from COVID-19. However, due to waivers published 4/10/2020, extension and revision 12/4/2020, and 9/27/2021, the work was able to restart during PY 2022.

ESG

DEHCR's ESG program conducts in-person site monitoring visits and desk monitoring to ensure that grantees are in compliance with the requirements of the ESG program. Standard forms that touch on financial standards and ESG-specific requirements are used for site and desk monitoring. DEHCR also regularly updates its ESG program manual to ensure grantees have an immediate resource when they have questions about ESG requirements. On-site inspections were postponed from the PY 2021 period due to the Department's moratorium stemming from COVID-19. However, due to waivers published 4/10/2020, extension and revision 12/4/2020, and 9/27/2021, the work was able to restart during PY 2022.

HOPWA

HOPWA program project sponsors and subgrantees are monitored on an annual basis. During the monitoring process, programmatic procedures, fiscal procedures, client files, an HOPWA HQS habitability standards inspection of at least one HOPWA STRMU-funded unit, and interviews with HOPWA clients are completed. On-site inspections were postponed from the PY 2021 period due to the Department's moratorium stemming from COVID-19. However, due to waivers published 4/10/2020, extension and revision 12/4/2020, and 9/27/2021, the work was able to restart during PY 2022.

HTF

Two WHEDA staff members are dedicated to reviewing results of competitive allocation rounds and coordinating all program processes. Additional staff members tracking minority business outreach in the Housing Tax Credit program are now also assisting with tracking Housing Trust Fund activities. WHEDA's comprehensive program planning has involved coordination between many business units of

WHEDA. Program requirements are clearly communicated with developers prior to closings and monitored throughout construction. Coordination between WHEDA and DOA occurs to ensure program environmental requirements are adhered to prior to deployment of funds. A cost certification is collected at project completion to ensure HTF dollars are going towards supporting households at or below 30% AMI. Borrowers provide a guarantee against any non-compliance with program regulations. 20% of HTF dollars are held back until construction completion.

Description of the efforts to provide citizens with reasonable notice and an opportunity to comment on performance reports.

Consistent with its Communication Plan, DEHCR posted notice in the May 12, 2023 and May 19, 2023 issues of the Wisconsin State Journal that a public hearing would be held for input regarding the CAPER. An in-person Public Hearing was held on May 26th with an option to attend telephonically including directions for accessing the public hearing were provided in the public notice. DEHCR posted the draft 2022 Consolidated Annual Performance and Evaluation Report (CAPER) on the Division's website.

The public input process lasted 15 days, beginning on May 26, 2023 and ending June 10, 2023. DEHCR submitted the CAPER to HUD by the deadline of June 30, 2023. DEHCR read, responded to, and recorded every comment received. To the extent possible, DEHCR incorporated public comments into the 2022 CAPER. No public comments were received during the comment period.

CR-45 CDBG

Specify the nature of, and reasons for, any changes in the jurisdiction's program objectives and indications of how the jurisdiction would change its programs as a result of its experiences.

In order to meet its job creation goals, DEHCR will work to increase marketing efforts for the Community Development Block Grant programs that create LMI jobs. Under the current lending environment of low interest rates, businesses are finding conventional loans more advantageous than the underwriting, compliance, and long-term reporting commitments required for CDBG funding. This barrier can be overcome through marketing and outreach to local stakeholders and by providing training to make the rules and regulations seem more manageable.

The CDBG-H program continues to prioritize homeowner rehabilitation. DEHCR exceeded its estimated number of units rehabilitated and the CDBG-H program significantly improved the safety and efficiency of homes for the clients served. The CDBG-H program has experienced a shortage of contractors to work in the program; this is especially true of trade contractors, including plumbers and electricians. In addition, the CDBG-H program has seen a rise in the number of projects exceeding \$50,000 to make the property decent, safe, and sanitary.

Does this jurisdiction have any open Brownfields Economic Development Initiative (BEDI) grants?

No

CR-50 HOME (HOME GRANTEES ONLY)

Include the results of on-site inspections of affordable rental housing assisted under the program to determine compliance with housing codes and other applicable regulations. Please list those projects that should have been inspected on-site this program year based upon the schedule in §92.504(d). Indicate which of these were inspected and a summary of issues that were detected during the inspection. For those that were not inspected, please indicate the reason and how you will remedy the situation.

The HOME-HHR program did not produce additional affordable rental housing units in PY 22.

The following HOME-TBRA projects were inspected on-site this program year based upon the monitoring schedule:

1	Lutheran Social Services - Unit #1
2	Lutheran Social Services - Unit #2
3	Salvation Army - Burnett - Unit #1
4	Salvation Army - Burnett - Unit #2
5	Northwest WI CSA - Unit #1
6	West CAP - Unit #1
7	West CAP - Unit #2
8	Chippewa County Housing Authority - Unit #1
9	Chippewa County Housing Authority - Unit #2
10	Couleecap - Unit #1
11	Salvation Army - Stevens Point - Unit #1
12	Salvation Army - Stevens Point - Unit #2
13	North Central CAP - Unit #1
14	North Central CAP - Unit #2
15	House of Hope Green Bay - Unit #1
16	House of Hope Green Bay - Unit #2
17	Newcap - Unit #1
18	Lakeshore CAP - Unit #1
19	Appleton Housing Authority - Unit #1
20	Appleton Housing Authority - Unit #2
21	ADVOCAP - Unit #1
22	ADVOCAP - Unit #2

23	Renewal Unlimited - Unit #1
24	Renewal Unlimited - Unit #2
25	Central WI CAC - Unit #1
26	Central WI CAC - Unit #2

A summary of issues that were detected over PY 22 during HOME-TBRA on-site monitoring inspections include: property standards, marketing plans and tenant selection plan. Most property standards are identified and cured in a timely manner. Administrative issues may be resolved with changes to site management policy or updating language in notice to applicants or residents.

The following HOME-RHD projects were inspected on-site this program year based upon the monitoring schedule:

- 1.) 80206.187.062, Uplands Sun Prairie (Uplands Homes LLC)
- 2.) RHDC-1605, Pine Meadow
- 3.) RHD-1306, Jefferson Street Apartments
- 4.) RHD-1513, The Exchange @ 104
- 5.) RHD-1201, Sister Bay Cottages (Blackstone Harbor Apartments)
- 6.) RHD-0984, River Cities Redevelopment
- 7.) RHD-0869, St. Peters RCAC
- 8.) RHD-0988, Fond du lac Townhomes
- 9.) RHD-0987, Mission Village Menasha
- 10.) RHD-1108, Lynndale Village
- 11.) RHD-1110, Mission Village of Sheboygan
- 12.) RHDC-1505, Pioneer Ridge
- 13.) RHD-0876, Uptown Commons
- 14.) RHD-1005, Eagle Flats
- 15.) RHD-1007, Woodfield Village II
- 16.) RHD-1003, Riverwalk Place
- 17.) RHD-1512, Grand View Townhomes
- 18.) RHD-1511, Bayshore Townhomes
- 19.) 88205.17, The Terraces of Geneva Crossing
- 20.) 81406.199.068, Killarney Kourt
- 21.) RHD-1509, Historic Washington School Apts
- 22.) RHDC-1132, Parkview Gardens II, Caledonia
- 23.) 89205.11.1, Pine Grove Apartments
- 24.) RHDC-0990, Holly Heights
- 25.) RHDC-1308, Rolan's Senior Village
- 26.) RHDC-1602, John Wenum Family Apartments
- 27.) RHDC-0627, Lancaster Senior Village
- 28.) 81408.200.69, Marquette Special Needs
- 29.) 80208.174.069, One Penny Place/Northwoods Senior
- 30.) RHD-1607, Cranberry Woods
- 31.) RHD-1507, Woolen Mills Lofts
- 32.) RHD-1114, Fair Acres Townhomes
- 33.) RHD-0877, Neillsville 1/ Pine-Court Terrace
- 34.) RHD-0878, Neillsville II Neillsville Manor
- 35.) 44027, Whispering Echoes
- 36.) RHD-1402, Jackson Square
- 37.) RHD-0989, Hudson Senior Housing (Heirloom Courts)

- 38.) RHD-0982, Hudson Supportive Housing (Tribute Commons)
- 39.) RHDC-1702, Abbey Grove
- 40.) RHD-0738, Osceola Village Apartments
- 41.) 82208.200.01, The Villas at Paperjack Creek
- 42.) RHD-0868, Heritage Cottages of Hudson
- 43.) RHD-0985, Heritage Cottages of Hudson Phase 2
- 44.) RHDC-0760, Shawano Supported Housing
- 45.) RHD-1113, Wausau Federal Building Redevelopment
- 46.) 80208.181.056, Glenwood Sr Living Community
- 47.) RHDC-0744, Iola Senior Village
- 48.) RHDC-1224, River Wood
- 49.) RHDC-1603, Nekoosa Senior Village
- 50.) RHDC-1312, Brillion Townhomes
- 51.) RHDC-1223, Berlin Senior Village
- 52.) RHDC-1098, Waupaca Townhomes/LeRoy Butler
- 53.) RHD-1414, Winfield Park
- 54.) 81408.200.69, Lakefront Senior Village LP
- 55.) RHD-1506, The Rivers Phase II
- 56.) RHD-1401, Croft Place
- 57.) RHDC-0750, Community Housing Project Bitters Ave
- 58.) RHDC-0871, Community Housing Project #6
- 59.) RHDC-0983, Community Housing Project #7
- 60.) RHDC-0746, Havenwood RCAC
- 61.) RHDC-1122, Community Housing Project Collins
- 62.) RHDC-0625, Community Housing Project

A summary of issues that were detected over PY 22 during HOME-RHD on-site monitoring inspections include: income eligibility documentation, lease documentation, property standards, rent calculations and tenant selection plan. Most issues are administrative in nature and can be resolved with changes to site management policy or updating language in notice to applicants or residents.

Provide an assessment of the jurisdictions' affirmative marketing actions for HOME units.

HOME recipients used the established affirmative marketing policies and procedures that HOME recipients must adopt. These policies and procedures are based upon the Code of Federal Regulations (CFR), specifically 24 CFR 92.351. HOME recipients must make an effort to inform potential applicants from all racial, ethnic, and gender groups in the housing market about available vacant units. In particular, they must inform persons in the housing market area that are not likely to apply for HOME-assisted housing.

During the program year, DEHCR did not receive any complaints concerning its recipients' affirmative marketing practices.

Data on the amount and use of program income for projects, including the number of projects and owner and tenant characteristics

\$5,125,971 of new HOME program income was receipted into IDIS for the 2022 program year. One HOME-RHD project was funded using program income in PY 22: Greenway Cottages. Greenway Cottages is a proposed 24-unit new construction activity in Mosinee WI, developing three single story buildings to serve low income households. The owner is Commonwealth Development Corporation via Greenway Cottages LLC a Wisconsin Limited Liability Company.

Other actions taken to foster and maintain affordable housing. STATES ONLY: Including the coordination of LIHTC with the development of affordable housing.

The HOME-RHD program issues HOME project funds to increase the amount of existing affordable rental housing within the state. The program also monitors grantees to ensure compliance with affordability regulations. A major directive of the monitoring process is to ensure residents of HOME-assisted units

are income-compliant with program stipulations. The HOME program is a consistent driver of new affordable housing stock within the state, as well as maintainer of existing affordable stock.

The HOME-RHD program routinely coordinates with WHEDA (Wisconsin's LIHTC-dispersing entity) to fund construction of new affordable housing stock and rehabilitate existing affordable housing stock. There are currently over 80 active projects in Wisconsin that contain both HOME and LIHTC funding.

CR-55 HOPWA (HOPWA GRANTEEES ONLY)

Number of Households Served Through	One-year Goal	Actual
Short-term rent, mortgage and utility assistance to prevent homelessness of the individual or family	144	102
Tenant-based rental assistance	0	5
Units provided in permanent housing facilities developed, leased or operated with HOPWA funds	0	0
Units provided in transitional short-term housing facilities developed, leased or operated with HOPWA funds	0	0
Total	144	107

Table 14 – HOPWA Number of Households Served

The HOPWA program only partially met the anticipated outcomes for this reporting period. Fewer individuals required short-term rent, mortgage, and utility (STRMU) assistance to prevent homelessness than expected. Vivent Health has been able to maintain access to services for HOPWA clients with no waitlist, which demonstrates the high prioritization of the vulnerable HIV/AIDS population served through STRMU.

STRMU assistance has provided stable housing for the vulnerable HIV/AIDS population. Of the 102 households receiving STRMU assistance, 47 of those households have been recognized as stable and are unlikely to require additional housing assistance in the future. Of the households receiving STRMU assistance, 57 received more than one type of supportive service. This is a reflection of the effectiveness of STRMU assistance, housing interventions performed by Vivent Health housing teams, and efforts to maintain collaboration with partnering organizations.

During PY22, Vivent Health expressed a need to expand their services for individuals and families affected by HIV/AIDS. Through an internal analysis of client income and housing needs, Vivent Health discovered that clients in the defined 66-county service area, who are ineligible for STRMU assistance, are experiencing housing instability and/or homelessness. To address this gap in unmet needs, Vivent Health proposed providing Tenant-Based Rental Assistance (TBRA) for individuals and families affected by HIV/AIDS.

The HOPWA TBRA program was designed to provide a higher level of housing and supportive services for clients in need. TBRA funding expands support for rent and utility assistance, comprehensive case management, harm reduction services and education, and access to specialized medical and behavioral health care. In the first three months of the TBRA program, five out of seven enrolled clients gained access to stable housing and supportive services.

As Wisconsin's HIV/AIDS population ages, the ability to find stable housing becomes more difficult due to reduced income and limited availability of long-term assistance. While offering TBRA helps, it is not sustainable for all households that may qualify for the program. Additional collaboration with local community organizations and governments that support ADA resources is required to positively impact safe housing and utility support options for the aging HIV/AIDS population.

CR-56 HTF 91.520 (H)

Describe the extent to which the grantee complied with its approved HTF allocation plan and the requirements of 24 CFR part 93.

The Wisconsin Housing and Economic Development Authority (WHEDA) submitted the 2022 allocation plan, with the goal of creating 75 units through the Housing Trust Fund program for the extremely low-income. WHEDA conducted one competitive round of applications for the allocation of HTF, in concurrence with the LIHTC application cycle, in December 2022.

In the December application period, 11 Housing Tax Credit recipients submitted applications for an allocation of HTF. Five applications were awarded. During PY 22, five projects supported with HTF funding completed construction and the units were placed into service. In addition, during the program year, there were 4 projects funded from previous allocations of Housing Trust Funds that closed on the funding, resulting in 181 units that are currently under construction. Lastly, there were 4 projects that received a preliminary commitment of Housing Trust Funds representing 181 units that started construction.

Tenure Type	0-30% AMI	0% of 30+ to poverty line	% of the higher of 30+ AMI or poverty line to 50% AMI	Total Occupied Units	Units Completed, Not Occupied	Total Completed Units

Table 15 – Shelter Utilization

9. Project Outcomes Data measured under the performance standards developed in consultation with the CoC(s)

Emergency Solutions Grant (ESG) funding was distributed using a formula incorporating need and performance data, with a goal of rewarding those who are best aligning their homeless service systems towards preventing and ending homelessness. The formula distributes funding among predetermined county groupings based on historical partnership for previous grant competitions, the HUD Continuum of Care process, and geographic proximity.

In 2022, a meeting was held with various stakeholders, including the Wisconsin HUD Continua of Care, to discuss the funding formula and determine the best elements to include. Based on the results of that meeting, the funding formula was revised to include HMIS data describing homelessness, an average of monthly census counts, poverty level data, and HUD system performance measures (including successful placement in or retention of permanent housing and returns to homelessness).

Applicants were also required to use performance data when distributing funds at the local level.

**PART I: SUMMARY OF CDBG-CV RESOURCES**

01 CDBG-CV GRANT	44,006,396.00
02 FUNDS RETURNED TO THE LINE-OF-CREDIT	0.00
03 FUNDS RETURNED TO THE LOCAL CDBG ACCOUNT	0.00
04 TOTAL CDBG-CV FUNDS AWARDED	44,006,396.00

PART II: SUMMARY OF CDBG-CV EXPENDITURES

05 DISBURSEMENTS OTHER THAN SECTION 108 REPAYMENTS AND PLANNING/ADMINISTRATION	12,714,035.60
06 DISBURSED IN IDIS FOR PLANNING/ADMINISTRATION	846,774.10
07 DISBURSED IN IDIS FOR SECTION 108 REPAYMENTS	0.00
08 TOTAL EXPENDITURES (SUM, LINES 05 - 07)	13,560,809.70
09 UNEXPENDED BALANCE (LINE 04 - LINE8)	30,445,586.30

PART III: LOWMOD BENEFIT FOR THE CDBG-CV GRANT

10 EXPENDED FOR LOW/MOD HOUSING IN SPECIAL AREAS	0.00
11 EXPENDED FOR LOW/MOD MULTI-UNIT HOUSING	0.00
12 DISBURSED FOR OTHER LOW/MOD ACTIVITIES	12,634,317.50
13 TOTAL LOW/MOD CREDIT (SUM, LINES 10 - 12)	12,634,317.50
14 AMOUNT SUBJECT TO LOW/MOD BENEFIT (LINE 05)	12,714,035.60
15 PERCENT LOW/MOD CREDIT (LINE 13/LINE 14)	99.37%

PART IV: PUBLIC SERVICE (PS) CALCULATIONS

16 DISBURSED IN IDIS FOR PUBLIC SERVICES	2,121,136.22
17 CDBG-CV GRANT	44,006,396.00
18 PERCENT OF FUNDS DISBURSED FOR PS ACTIVITIES (LINE 16/LINE 17)	4.82%

PART V: PLANNING AND ADMINISTRATION (PA) CAP

19 DISBURSED IN IDIS FOR PLANNING/ADMINISTRATION	874,895.85
20 CDBG-CV GRANT	44,006,396.00
21 PERCENT OF FUNDS DISBURSED FOR PA ACTIVITIES (LINE 19/LINE 20)	1.99%

D. Compliance with Public Service (PS) Cap		
41)	Disbursed in IDIS for PS	\$0.00
42)	Adjustment to compute total disbursed for PS	\$0.00
43)	Total disbursed for PS (sum of lines 41 and 42)	\$0.00
44)	Amount subject to PS cap	
45)	State Allocation (line 1)	\$24,201,451.00
46)	Program Income Received (line 5)	\$2,339,540.43
47)	Adjustment to compute total subject to PS cap	\$0.00
48)	Total subject to PS cap (sum of lines 45-47)	\$26,540,991.43
49)	Percent of funds disbursed to date for PS (line 43 / line 48)	0.19%
E. Compliance with Planning and Administration (P/A) Cap		
50)	Disbursed in IDIS for P/A from all fund types - Combined	\$224,733.01
51)	Adjustment to compute total disbursed for P/A	\$0.00
52)	Total disbursed for P/A (sum of lines 50 and 51)	\$224,733.01
53)	Amount subject to Combined Expenditure P/A cap	
54)	State Allocation (line 1)	\$24,201,451.00
55)	Program Income Received (line 5)	\$2,339,540.43
56)	Adjustment to compute total subject to P/A cap	\$0.00
57)	Total subject to P/A cap (sum of lines 54-56)	\$26,540,991.43
58)	Percent of funds disbursed to date for P/A (line 52 / line 57) Combined Cap	0.85%
59)	Disbursed in IDIS for P/A from Annual Grant Only	\$69,077.47
60)	Amount subject the Annual Grant P/A cap	
61)	State Allocation	\$24,201,451.00
62)	Percent of funds disbursed to date for P/A (line 59 / line 61) Annual Grant Cap	0.29%

Part I: Financial Status

A. Sources of State CDBG Funds

1)	State Allocation	\$23,310,593.00
2)	Program Income	
3)	Program income receipted in IDIS	\$6,109,811.16
3 a)	Program income receipted from Section 108 Projects (for SI type)	\$0.00
4)	Adjustment to compute total program income	\$0.00
5)	Total program income (sum of lines 3 and 4)	\$6,109,811.16
6)	Section 108 Loan Funds	\$0.00
7)	Total State CDBG Resources (sum of lines 1,5 and 6)	\$29,420,404.16

B. State CDBG Resources by Use

8)	State Allocation	
9)	Obligated to recipients	\$18,479,267.00
10)	Adjustment to compute total obligated to recipients	\$0.00
11)	Total obligated to recipients (sum of lines 9 and 10)	\$18,479,267.00
12)	Set aside for State Administration	\$0.00
13)	Adjustment to compute total set aside for State Administration	\$566,211.86
14)	Total set aside for State Administration (sum of lines 12 and 13)	\$566,211.86
15)	Set aside for Technical Assistance	
16)	Adjustment to compute total set aside for Technical Assistance	\$233,105.93
17)	Total set aside for Technical Assistance (sum of lines 15 and 16)	
18)	State funds set aside for State Administration match	\$466,211.86

19)	Program Income	
20)	Returned to the state and redistributed	
20 a)	Section 108 program income expended for the Section 108 repayment	
21)	Adjustment to compute total redistributed	\$0.00
22)	Total redistributed (sum of lines 20 and 21)	\$0.00
23)	Returned to the state and not yet redistributed	\$0.00
23 a)	Section 108 program income not yet disbursed	\$0.00
24)	Adjustment to compute total not yet redistributed	\$0.00
25)	Total not yet redistributed (sum of lines 23 and 24)	\$0.00
26)	Retained by recipients	\$6,109,811.16
27)	Adjustment to compute total retained	\$0.00
28)	Total retained (sum of lines 26 and 27)	\$6,109,811.16
C.	Expenditures of State CDBG Resources	
29)	Drawn for State Administration	\$0.00
30)	Adjustment to amount drawn for State Administration	\$0.00
31)	Total drawn for State Administration	\$0.00
32)	Drawn for Technical Assistance	\$0.00
33)	Adjustment to amount drawn for Technical Assistance	\$0.00
34)	Total drawn for Technical Assistance	\$0.00
		<i>-\$233,105.93</i>
35)	Drawn for Section 108 Repayments	\$0.00
36)	Adjustment to amount drawn for Section 108 Repayments	\$0.00
37)	Total drawn for Section 108 Repayments	\$0.00
38)	Drawn for all other activities	\$45,005,497.58
39)	Adjustment to amount drawn for all other activities	\$0.00
40)	Total drawn for all other activities	\$45,005,497.58
