### Rent Reasonableness

HUD's rent reasonableness standard is designed to ensure that rents being paid are reasonable in relation to rents being charged for comparable unassisted units in the same market. Recipients and subrecipients should have a procedure in place to ensure that compliance with rent reasonableness standards is documented prior to an executing the lease for an assisted unit. Under the CoC Program, all units and structures for which rent is paid must be reasonable.

### Fair Market Rent

HUD establishes FMRs to determine payment standards or rent ceilings for HUD-funded programs that provide housing assistance. The FMR standard is applied to ensure that a reasonable supply of adequate but modest rental housing is accessible to program participants. To accomplish this objective, FMRs must be high enough to permit a selection of units and neighborhoods and low enough to maximize the number of low-income families that can be served.
