Households entirely composed of persons receiving Supplemental Security Income (SSI), TANF, or Food Stamps (SNAP) in the previous month from the date of application are deemed to be income eligible, i.e. the benefit for a categorically eligible household whose income exceeds the guidelines will be calculated using the maximum eligible income level.

Section 2 - HEATING ASSISTANCE

Eligibility, 2605(b)(2) – Assurance 2

2.1 Designate the income eligibility threshold used for the heating component:

2020 HHS poverty income level _____%

OR

FY 2021 state’s median income 60 %

2.2 Do you have additional eligibility requirements for **HEATING ASSISTANCE?**

Yes No

2.3 Check the appropriate boxes below and describe the policies for each.

- | | <u>Yes</u> | <u>No</u> |
|--|-------------------------------------|-------------------------------------|
| ● Do you require an assets test? | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

| • Households with high energy burdens? | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| • Other? | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

Explanations of policies for each "yes" checked above:

1. Renters with Utilities Included in the Rent, please see section 3.4.18

If the customer lives in a mobile home and owns the unit, indicate they are an owner even if they pay lot rent in a mobile home park.

Landlord and/or management company contact information is essential to Weatherization referrals. For all rental situations, agencies shall enter, in the system, the landlord or management company contact information. The landlord’s or management company name, address and phone number is required.

Workers shall not allow an application to deny if the customer does not provide landlord information within 30 days of the application date. Applications may need to be reinstated if denied incorrectly for not providing landlord information.

Customers are required to provide verification for the following payment methods and the means of verification must be indicated in Home Energy Plus (HE+) System Notes:

- Rental payment includes energy in the monthly rent.
- Separate payment is made to the landlord, mobile home park owner...
- Do not pay

2. Priority in eligibility to elderly, disabled and households with young children, please see section: 8.2.3

8.2.3 Outreach

- 1) Agencies are required to provide outreach services to maximize participation of eligible persons for WHEAP benefits. Outreach activities must target households with disabled persons, elderly persons, children under six years old, and persons working at low-wage jobs (working poor). The “outreach indicator” is a question on the paper and system application. See Section 3.4.4 for more information about the outreach indicator.
- 2) Agencies are required to prominently display the Home Energy Plus Weatherization/WHEAP Co-Branding Poster in the agency’s main waiting area for WHEAP intake. WHEAP are encouraged to also consider displaying the poster in intake workers’ offices, outreach locations, and other appropriate areas. Agencies may choose to develop and display their own WHEAP posters provided they contact the HE+ logo and the county/tribe specific Co-Branding logo.
- 3) Agencies are encouraged to play the Home Energy Plus Weatherization/WHEAP video(s)* in agencies’ main customer service waiting areas. Agencies shall make the Home Energy Plus video(s) accessible via electronic media such as Facebook, Twitter and/or the agency website, if feasible.
- 4) Agencies are encouraged to reference and provide the Online Application link (energybenefit.wi.gov) accessible via electronic media such as Facebook and Twitter if feasible. Agencies are required to provide and reference the link on the agency website.
- 5) Agencies are required to ensure that persons with limited English proficiency (LEP) have meaningful and equal access to benefits and services. The agency is required to provide spoken interpretation in addition to translated written publications as some individuals may not read English or other language. The agency must have a mechanism to communicate orally with people with LEP. Providing the Spanish version of the Home Energy Plus (HE+) Application is not fulfilling this policy requirement. If the applicant requires spoken communication and/or explanation in addition to the translated application, agencies shall ensure verbal interpretation is available.
- 6) Agencies are required to provide services to the disabled and impaired, including but not limited to assisting applicants with the completion of the application form, translation of material, interpretation services for deaf, and reading services for blind.
- 7) Agencies must establish HE+ application sites that are accessible to targeted households.
- 8) Agencies must comply with Federal Law and provide an alternate intake site separate from a site which administers W-2/TANF. All agencies will be compliant due to the implementation of online applications.
- 9) Agencies must provide assistance with the preparation and submittal of applications by persons who are homebound.
- 10) Agencies must arrange an early application period for persons in targeted groups and high-risk households.

- 11) Agencies are required to complete a Program Operations and Community Service Plan (POCS) Plan. The Division provided template is available on the HE+ public website under WHEAP Grantee Information. The goal of this plan is to provide agencies with a means to describe how the agency will conduct outreach, how they will identify and enroll eligible households in their communities and explain how the agency will reach targeted households. The POCS Plan should indicate what other community resources/stakeholders play a role in this outreach effort and identify key stakeholders that the agency coordinates efforts/referrals with. In addition, the list should indicate the local agency's contact person and the resource services provided. The plan must be made available to the Division upon request.
- 12) Agencies may choose to subcontract with non-profit organizations that administer W-2/TANF as long as an alternate intake method is offered which does not require applicants to apply in person.
- 13) Agencies may establish interagency agreements with other low-income program offices to perform some of the outreach activities to targeted groups.

*The Home Energy Plus videos can be located via the Home Energy Plus Training and Technical Website (T&TA) under Technical Assistance→Outreach

Determination of Benefits, 2605(b)(5) – Assurance 5, 2605(c)(1)(B)

2.4 Describe how you prioritize the provision of heating assistance to vulnerable households, e.g., benefit amounts, application period, etc.

There is no differentiation in the formula for calculating benefits however, funds are allocated specifically to allow for outreach to vulnerable households including those with elderly, disabled or young children as residents. These households are encouraged and assisted to apply for LIHEAP benefits.

The benefit formula for the State of Wisconsin provides a 4:1 ratio for households with high energy burdens. Households with the highest energy burden and the lowest income receive the highest benefit. The State of Wisconsin rounds down the median income guidelines for determining income eligibility. The benefit matrix is attached to this plan for further information.

In addition, there is an early application period targeted to households with fixed income (Social Security Benefits, Pensions, dividends/interest income and/or Veteran’s Benefits) which allows them to apply in the summer months for the following Federal Fiscal Year.

2.5 Check the variables you use to determine your benefit levels. (Check all that apply):

- Income
- Family (household) size
- Home energy cost or need:
- Fuel type
- Climate/region
- Individual bill
- Dwelling type
- Energy burden (% of income spent on home energy)
- Energy need
- Other (Describe)

Benefit Levels, 2605(b)(5) – Assurance 5, 2605(c)(1)(B)

2.6 Describe benefit levels:

\$ 30 Minimum benefit \$ 1,918 Maximum benefit

2.7 Do you provide in-kind (e.g., blankets, space heaters) and/or other forms of benefits?

Yes No -- If yes, describe.

Wisconsin Home Energy Assistance Program (WHEAP) agencies (sub-grantees) can provide additional services such as blankets, space heaters, weatherization stripping, LED's, etc. LIHEAP funds are used to provide the additional services.

If any of the above questions require further explanation or clarification that could not be made in the fields provided, attach a document with said explanation here.

Section 4: CRISIS ASSISTANCE,

Eligibility - 2604(c), 2605(c)(1)(A)

4.1 Designate the income eligibility threshold used for the crisis component:

2019 HHS poverty income level _____%

OR

FY 2020 state median income 60 %

4.2 Provide your LIHEAP program’s definition for determining a crisis.

Households must have existing/imminent lack of adequate heat in dwelling (emergency), or a risk of a heating emergency (prevention). While there is not a formal asset test, consideration may be given to resources available to the household before prevention assistance is provided. No household is eligible for crisis cooling assistance without a declaration by a local or state public health agency of a heat emergency and authorization is given by the Department of Administration.

A household may receive more than one crisis assistance payment.

Determination of eligibility for regular heating assistance benefits determines a household’s eligibility for Prevention Assistance for the remainder of the program period if the household has contributed a minimum of \$25 or more towards their heating costs in the three months prior to application for Prevention Assistance.

4.3 What constitutes a life-threatening crisis?

To qualify for a potentially life-threatening crisis, the weather and other conditions must create a concern for the health and life of the household’s residents. Determination of a threat to health or safety of an eligible household is based on four factors: expected low temperature, condition of the dwelling unit (habitable, operable furnace, etc.), presence of vulnerable persons (persons with medical need for heat -- elderly, handicapped, children under six, etc.), and alternatives available to the household (place for temporary relocation, etc.). Medical need for heat may be considered in determining the presence of an emergency for vulnerable persons, including households with young children, handicapped and/or elderly persons. The presence of vulnerable persons may affect the amount and type of benefit provided to the household.

Crisis Requirements, 2604(c)

4.4 Within how many hours do you provide crisis assistance that will resolve the energy crisis for eligible households? 48 Hours

4.5 Within how many hours do you provide crisis assistance that will resolve the energy crisis for eligible households in life-threatening situations? 18 Hours

Determination of Benefits

4.8 How do you handle crisis situations?

- Separate component
- Fast Track
- Other

4.9 If you have a separate component, how do you determine crisis assistance benefits?

- Amount to resolve crisis, up to a maximum of \$_____
- Other

Section 4.2.1.3: Agencies shall work with customers to determine the amount needed to prevent and/or restore an energy loss. The preapproved range to alleviate the crisis situation is \$300 to \$750. The maximum amount allowed for deliverable fuel requests is the minimum fill plus trip charge (when applicable). The maximum amount for natural gas and electric requests is the utility's required down payment. The worker should document, in HE+ System Notes, the requirement for each crisis request. If an exception is needed to these maximum amounts, contact the Help Desk.

The Department of Administration (Wisconsin Home Energy Assistance Program) has annually been in contract with the Keep Wisconsin Warm Fuel Fund and/or Heat for Heroes. Once the fuel fund has raised match funds, LIHEAP matched funds are awarded. These funds are another resource made available to local sub-grantees for eligible low-income customers.

Section 2.2.2.3: A homeless applicant who has proof of a permanent address to move into may be eligible for an energy assistance benefit if the following conditions are met:

- verification of a move to a permanent address
- the applicant must have established energy accounts
- if the homeless applicant cannot secure a home energy account due to large arrearages on a previous account, or does not have the money for a deposit, Prevention Assistance may be used to assist them with securing energy services which in rare cases may include a first month's rent.

Crisis Requirements, 2604(c)

4.10 Do you accept applications for energy crisis assistance at sites that are geographically accessible to all households in the area to be served?

- Yes
- No

The State of Wisconsin allows for applications to be taken via the phone, in office, mail, alternate locations, and online. Outreach locations are both categorically and geographically diverse.

4.11 Do you provide individuals who are physically disabled the means to:

- Submit applications for crisis benefits without leaving their homes?

5.2 Do you enter into an interagency agreement to have another government agency administer a **WEATHERIZATION component**? Yes No

5.3 Name the agency. _____

5.4 Is there a separate monitoring protocol for weatherization? Yes No

WEATHERIZATION - Types of Rules

5.5 Under what rules do you administer LIHEAP weatherization? (Check only one.)

Entirely under LIHEAP (not DOE) rules

Entirely under DOE WAP (not LIHEAP) rules

Mostly under LIHEAP rules with the following DOE WAP rule(s) where LIHEAP and WAP rules differ: (Check all that apply.)

Income Threshold

Weatherization of entire multi-family housing structure is permitted if at least 66% of units (50% in 2- & 4-unit buildings) are eligible units or will become eligible within 180 days.

Weatherization of shelters temporarily housing primarily low income persons (excluding nursing homes, prisons, and similar institutional care facilities) is permitted.

Other (describe)

Mostly under DOE WAP rules, with the following LIHEAP rule(s) where LIHEAP and WAP rules differ: (Check all that apply.)

Income Threshold

Weatherization not subject to DOE WAP maximum statewide average cost per dwelling unit.

	<u>Yes</u>	<u>No</u>
5.6 Do you require an assets test?	<input type="checkbox"/>	<input checked="" type="checkbox"/>
5.7 Do you have additional/differing eligibility policies for:		
• Renters?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
• Renters living in subsidized housing?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
5.8 Do you give priority in eligibility to:		
• Elderly?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
• Disabled?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
• Young children?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
• Households with high energy burdens?	<input checked="" type="checkbox"/>	<input type="checkbox"/>
• Other? <u>Tribal Referrals</u>	<input checked="" type="checkbox"/>	<input type="checkbox"/>

If you selected “Yes” for any of the options in 5.6, 5.7, or 5.8, you must provide further explanation of these policies in the text field below:

Tribal Referrals are given priority by Weatherization grantees

Renters who receive rental assistance (Section 8 or other government assisted housing) and their heat and/or electric is included in their rent and renters who pay neither rent or heating/electric cost because of an in-kind rental agreement are not eligible for energy assistance or weatherization.

The State of Wisconsin requires outreach activities to target households with elderly, disabled or children under six years old and person working at low-wage jobs. Weatherization also targets high energy users and our statewide computer system automatically refers tribal residents to our weatherization agencies.

Benefit Levels

5.9 Do you have a maximum LIHEAP weatherization benefit/expenditure per household?
 Yes No

5.10 What is the maximum amount? \$ _____

Types of Assistance, 2605(c)(1), (B) & (D)

5.11 What LIHEAP weatherization measures do you provide? (Check all categories that apply.)

- Weatherization needs assessments/audits
- Caulking and insulation
- Storm windows
- Furnace/heating system modifications/repairs

- Furnace replacement
- Cooling system modifications/repairs
- Water conservation measures
- Compact florescent light bulbs
- Energy related roof repair
- Major appliance repairs
- Major appliance replacement
- Windows/sliding glass doors
- Doors
- Water Heater
- Cooling system replacement
- Other (describe) Light-emitting diode (LED's)

If any of the above questions require further explanation or clarification that could not be made in the fields provided, attach a document with said explanation here.

Wisconsin's low income housing stock often needs minor structural or electrical improvements before weatherization work can proceed. Wisconsin proposes to use a portion of the allowable 15% transfer to the Weatherization Assistance Program to address minor deferrals so that these units will be in appropriate condition for a weatherization energy audit to be performed and the installation of energy conservation measures. Households may have been deferred previously for weatherization services or are targeted to receive weatherization services within the current WAP year. All households must be determined to be WHEAP eligible at 60% of state median income for program year 2020-2021 prior to the time of work being completed. The predominant reasons for deferral as identified in our tracking of homes deferred for weatherization that would be addressed are minor Water/Moisture Issues in Basements, Structural Roof or Ceiling and Repair (not a full roof replacement) and or Electrical Deficiencies.

Section 6: Outreach, 2605(b)(3) – Assurance 3, 2605(c)(3)(A)

6.1 Select all outreach activities that you conduct that are designed to assure that eligible households are made aware of all LIHEAP assistance available:

- Place posters/flyers in local and county social service offices, offices of aging, Social Security offices, VA, etc.
- Publish articles in local newspapers or broadcast media announcements.
- Include inserts in energy vendor billings to inform individuals of the availability of all types of LIHEAP assistance.
- Mass mailing(s) to prior-year LIHEAP recipients.
- Inform low income applicants of the availability of all types of LIHEAP assistance at application intake for other low-income programs.
- Execute interagency agreements with other low-income program offices to perform outreach to target groups.
- Other (specify):

Allocate funds specifically for the purpose of outreach to households with elderly, disabled, rural poor, and/or young children residents.

An early application period is utilized prior to the heating season. This process includes accepting applications during the summer for the following Federal Fiscal Year from targeted households. Automated Applications are processed during the early application period; agencies may also accept early Online Applications.

Accept applications for energy assistance at sites geographically accessible to all households in the area to be served. This includes setting up LIHEAP application sites for targeted households (contacting targeted persons or their representatives to ascertain convenient times and places, contacting community leaders to locate and serve application sites, providing information on alternate sites to organizations/programs likely to reach targeted persons, contacting targeted persons to arrange application appointments, transportation, etc.).

Provide information directly or by selective mailing to targeted applicants, e.g., assistance to understand the application form, translation of material, interpretation services for deaf, reading for blind needed to complete their application.

Facilitate access to state weatherization programs targeted to LIHEAP eligible households and other energy-related services e.g., utility early identification and emergency intervention.

Agencies are required to provide outreach services to maximize participation of eligible persons in the Low Income Home Energy Assistance Program. It is the responsibility of each agency to provide application sites accessible to the eligible population in the county/tribe, with particular attention to overcoming barriers for targeted households. Outreach customer benefits include: taking applications, certifying application information, and processing applications at an alternate site.

If any of the above questions require further explanation or clarification that could not be made in the fields provided, attach a document with said explanation here.

Section 7: Coordination, 2605(b)(4) – Assurance 4

7.1 Describe how you will ensure that the LIHEAP program is coordinated with other programs available to low-income households (TANF, SSI, WAP, etc.)

- Joint application for multiple programs
- Intake referrals to/from other programs
- One-stop intake centers
- Other – describe:

Wisconsin administers LIHEAP, DOE, Public Benefit weatherization programs and housing programs through the same state office, the Department of Administration, Division of Energy, Housing and Community Resources (DEHCR). LIHEAP is coordinated at the state level with income maintenance programs through agreements and data collection/sharing with the Department of Children and Families (DCF) and Department of Health Services (DHS). DCF operates the Temporary Assistance to Needy Families (TANF), W-2, including the jobs and welfare to work program as well as other assistance programs. DHS operates Medicaid, FoodShare (SNAP), and Aging and Disability Resource Centers

Beginning in FY2001, State of Wisconsin Public Benefits funds were used to make non-heating payments to eligible recipients. Public Benefit funds are fully integrated into the Wisconsin Home Energy Assistance Program, WHEAP. LIHEAP funding may be used to sustain non-heating payments to eligible recipients.

Coordination between the state and local level is achieved by including representation from a variety of private and government agencies interested in energy services and/or services for low-income persons on the Low Income Energy Advisory Committee (LIEAC). Wisconsin also utilizes a workgroup from the Wisconsin Home Energy Assistance Program (WHEAP) agencies to provide input on new policy and system related changes.

WHEAP agencies coordinate their programs with each other, with utility-operated programs and with other government and nonprofit programs operated within their service area. WHEAP Agencies are required to develop a local coordination plan annually to show what is being done to coordinate with weatherization agencies, fuel providers (utility and bulk fuels), and other local groups.

Section 9: Energy Suppliers, 2605(b)(7) – Assurance 7

9.1 Do you make payments directly to home energy suppliers?

- | | | | | |
|-----------------------|-------------------------------------|-----|-------------------------------------|----|
| Heating | <input checked="" type="checkbox"/> | Yes | <input type="checkbox"/> | No |
| Cooling | <input type="checkbox"/> | Yes | <input checked="" type="checkbox"/> | No |
| Crisis | <input checked="" type="checkbox"/> | Yes | <input type="checkbox"/> | No |
| Are there exceptions? | <input checked="" type="checkbox"/> | Yes | <input type="checkbox"/> | No |

If yes, Describe.

For all of the items requiring policy references, please access the Wisconsin Home Energy Assistance Program (WHEAP) Operations Manual at:

<http://homeenergyplus.wi.gov/category.asp?linkcatid=256&linkid=122&locid=25> and access the following sections:

1. Heating, please see sections 1.3.1, 7.1, 7.2, and 7.8.1
2. Crisis, please see sections 1.1.2, 4.2.1, 7.2, and 8.3.5.5
3. Exceptions, please see sections 7.1, 7.3, and 7.4

9.2 How do you notify the client of the amount of assistance paid?

At the time the LIHEAP payment is sent to the vendor, a payment notification is generated and sent to the customer, indicating the amount of the payment and the vendor to whom the payment was made. When applications are completed interactively, customers are informed at the conclusion of the interview and are immediately provided with a benefit summary document that also provides the amount of benefits that will be paid to their energy provider. Additionally, each Wednesday, the Wisconsin system processes all completed applications and the system mails customer notification letters.

Households receiving weatherization and/or energy related repairs receive a written work agreement of work to be performed.

9.3 How do you assure that the home energy supplier will charge the eligible household, in the normal billing process, the difference between the actual cost of the home energy and the amount of the payment?

The Department of Administration requires vendors to register for participation in the heating assistance program by completing and signing a Vendor Agreement. To register, fuel suppliers agree that clients will be: treated equally with non-LIHEAP households, not be adversely affected, e.g., the eligible household will be charged in the supplier's normal billing process, the price charged will be the price normally charged non-LIHEAP eligible households, invoices will clearly indicate the amount and cost of home energy provided, and no discrimination will occur against eligible households with respect to terms, deferred payment plans, credit, conditions of sales or discounts offered other home energy customers.

In addition, a Vendor Desktop Monitoring process is in place to conduct a review of LIHEAP payments and fuel provided, in comparison with non-LIHEAP customers.

Crisis assistance payments are only made to vendors registered for heating assistance. In addition to signing assurances guaranteeing that LIHEAP clients will be treated equally with non-LIHEAP households and will not be adversely affected, registered vendors are required to provide information on costs and procedures for emergency fuel delivery.

Energy related home repair and weatherization purchases made by LIHEAP weatherization providers follow appropriate state or federal procurement guidelines and applicable material standards.

9.4 How do you assure that no household receiving assistance under this title will be treated adversely because of their receipt of LIHEAP assistance?

The Department of Administration requires vendors to register for participation in the heating assistance program by completing and signing a Vendor Agreement. To register, fuel suppliers agree that customers will be: treated equally with non-LIHEAP households, not be adversely affected, e.g., the eligible household will be charged in the supplier's normal billing process, the price charged will be the price normally charged non-LIHEAP eligible households, invoices will clearly indicate the amount and cost of home energy provided, and no discrimination will occur against eligible households with respect to terms, deferred payment plans, credit, conditions of sales or discounts offered other home energy customers.

In addition, a Vendor Desktop Monitoring process is in place to conduct a review of LIHEAP payments and fuel provided, in comparison with non-LIHEAP customers.

Crisis assistance payments are only made to vendors registered for heating assistance. In addition to signing assurances guaranteeing that LIHEAP clients will be treated equally with non-LIHEAP households and will not be adversely affected, registered vendors are required to provide information on costs and procedures for emergency fuel delivery.

Energy related home repair and weatherization purchases made by LIHEAP weatherization providers follow appropriate state or federal procurement guidelines and applicable material standards.

9.5 Do you make payments contingent on unregulated vendors taking appropriate measures to alleviate the energy burdens of eligible households? Yes No.

If so, describe the measures unregulated vendors may take.

Unregulated vendors are subject to the same program operation policies as regulated vendors. All vendors must register with the Wisconsin Home Energy Assistance Program (WHEAP) by submitting a complete and signed vendor agreement before any payments are made to the vendor. Vendor access to the Home Energy Plus System is limited and does not allow vendors to enter information into the system. Vendor payments are Home Energy Plus System generated and based on approved applications.

If any of the above questions require further explanation or clarification that could not be made in the fields provided, attach a document with said explanation here.

Section 10: Program, Fiscal Monitoring, and Audit, 2605(b)(10) – Assurance 10

10.1 How do you ensure good fiscal accounting and tracking of LIHEAP funds?

The Monitoring Team uses a multi-faceted approach to track sub-grantee awards. The Monitoring Team conducts regular analysis of sub-grantee spending. Contract fund analysis includes an ongoing assessment of the frequency and reasonableness of agency invoicing. The Monitoring Team assesses spending across each of the contract accounts to determine the appropriateness and reasonableness of agency spending. The Monitoring Team also evaluates staff activity logs and provides Training and Technical Assistance (T/TA) as needed to ensure that costs are assigned to the correct account lines. Agencies are also required to segregate the invoice creation and invoice approver duties to maintain program integrity. The Monitoring Team evaluates the three prior years of spending of contract and/or crisis benefit funds.

The Division’s Home Energy Plus (HE+) System, processes agency invoices for payment. Safeguards are built into the system to ensure that no funds are expended beyond the allowable contractual period. The Division proactively communicates with agencies via policy, training and network wide communications advising them to submit their invoices within the allowable contractual period. They are further advised that any expenses submitted outside of this period will not be paid.

The Division also relies on the findings from the required State Single Audit. Agencies are required to have a two-tier approval process for invoicing and must annually submit their financial audits to the State. Agency internal control deficiencies are discussed to determine if there is a potential to affect the integrity of the program. As part of this process, agencies are also required to disclose any instances of worker fraud.

Refunds are tracked and recorded in the HE+ System.

Audit Process

10.2 Is your LIHEAP program audited annually under the Single Audit Act and OMB Circular A-133?

Yes

10.3 Describe any audit findings rising to the level of material weakness or reportable condition cited in the A-133 audits, Grantee monitoring assessments, inspector general reviews, or other government agency reviews of the LIHEAP agency from the most recently audited federal fiscal year.

10.6 Explain, or attach a copy of, your local agency monitoring schedule and protocol.

Prior to each program year, DEHCR conducts an evaluation that is based primarily on prior program year monitoring activities. The evaluation outputs are used to establish a provisional schedule for Administrative Reviews (onsite) and Desktop Monitoring activities.

10.7 Describe how you select local agencies for monitoring reviews?

Site Visits:

All 78 agencies are monitored on an annual basis. An Administrative Review (onsite) is conducted for agencies with a higher evaluation (score). The feasibility of conducting onsite reviews is reviewed regularly by DEHCR in order to conduct an Administrative Review for agencies with a higher score.

Desk Reviews: All agencies not scheduled for an onsite review are scheduled for a Desktop Monitoring review.

All 78 agencies are monitored on an annual basis.

10.9 What is the combined error rate for eligibility determinations? (Optional)

All case files reviewed in the FFY 2020 Administrative Reviews and Desktop Monitoring Reviews identified a cumulative error rate of 0% where the error resulted in a household being wrongly determined as eligible or being wrongly determined as ineligible.

10.10 What is the combined error rate for benefit determinations? (Optional)

All case files reviewed in the FFY 2020 Administrative Reviews and Desktop Monitoring Reviews identified a cumulative error rate of 1%.

Households have 45 days from the date the application process was completed to file a fair hearing if they believe their application was incorrectly denied, the application received no action in the appropriate timeframe or incorrect facts or improper procedures were used to determine eligibility, assistance amounts, or services provided. The fair hearing procedures follows three steps:

Step 1: Local WHEAP Agency reviews the appeal request and works with the household to try to resolve the issue. If the household is not satisfied with the outcome of the WHEAP Agency's response, a written formal appeal may be submitted to the Division.

Step 2: The Division reviews the formal appeal to ensure compliance with the WHEAP policies, procedures, and applicable statutes. Once DEHCR completes their review, a written appeal decision is sent to the household. If the household is still not satisfied with the outcome of DEHCR's decision, a written formal appeal may be submitted to the Division of Hearings and Appeals (DHA).

Step 3: DHA receives an appeal request and sends an email with a copy of that request, along with a Summary of Action Leading to Appeal form "summary form" and a Request Withdrawal form to the local WHEAP agency contact. The local WHEAP agency completes the summary form and emails it back to DHA.

If the local WHEAP agency is able to resolve the issue with the household, the WHEAP agency indicates that the issue was resolved and explains the actions taken in the Explanation of Action section of the summary form and advises the household to withdraw the appeal.

If the matter has not been resolved between the local WHEAP agency and household, DHA uses the information provided in the summary form to schedule the hearing.

DHA sends a letter to the household notifying them of receipt of the appeal, a letter when the hearing date is sent, and a letter with outcome results.
